POST

25-1917. January - the pleasure of
my part will now. I got letter from Arthur
and says today. Please give me your address.
And I have been asking about myself
just can't hear a word - I would like
as much if you would one by write
me all me, and if you can give me
a home number - I can't write until
a few days. A few days seem an awful
long time, and if I do some writing it
helps pass away the time, and I like to
much to hear from home. So please don't
fail to write the first time you get a chance.
