Calming the Chaos with Dr. Renea Skelton
Is your house filled with chaos and disruption? Would you like to yell less, have fewer power struggles, connect more, and feel more confident in your parenting?

Children have a way of driving us nuts when they whine, complain, talk back or just don't listen. But have you ever considered what we are doing as parents that brings on that behavior in our kids? You are not alone. This unsettling time is an amazing opportunity to connect with our children through conversations. Even if you have a peaceful home, you can learn tips to effectively communicate to bring harmony. When little people are overwhelmed by big emotions, it is our job to share our calm and not join their chaos. Join Dr. Skelton in an interactive virtual discussion focused on how we can positively communicate with our children during this chaotic time.
