Office of the Dean

September 21, 1936

Dear Professor Watkin:

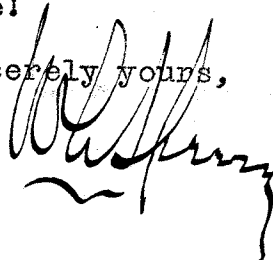

I saw President Lovett at the Tercentenary Exercises last week and he gave me the good news that Harpers is taking your book. He seemed pleased at this outcome, and I know that you are.

I, personally, am very glad to see it and have it in print. It ought to be very useful and should help along the cause of church architecture in this country.

I should be delighted to have a copy from you. The subject is one which interests me vastly, and there is so little available that you ought to be a pace-maker.

All good luck to the volume!

Sincerely yours,

Professor Wm. Ward Watkin  
The Rice Institute  
Houston, Texas
