Dear Gainer,

I see the pictures got here alright and they had plenty of postage. I guess I ought to ask you whether there was enough postage on them when you got them. Put this letter decorated through.

Well I got some stationery now so I won't have to use different kinds this time. Of Gainer you have no idea what it means to be a Soph President. I hate to talk about it because I know how I hate to always hear some one say I did this and I did that, but so many things have happened I can't help telling someone. Here let freshmen sure to respect the prey and at the same time they hate him. you see what ever the President says is taken as an example and if anything happens why these fish remember what the former president.

portant, which was a polite way of telling him
to mind his own business. Oh just rolls of
thump come up, just like that and they
always ask me about it. I am already tired of
this publicity. You ought to see these girls so
too and sweet when we go to class. And of course a
Freshman always is located well on the way to
the administration building. You can cut pro-
duction bit by walking across the grass. Whenever
it gets pretty late they will beg you to take
their across the grass. I do sometimes if

but be always carries my books. You sure am
getting my share of the fun. But just quit
beating on them unless they simply get to

if a Freshman helps himself to something
before he passes to the uppercrustness. So if they
don't wear coats, collars, and ties. Or smoke
anything but a correct pipe or walk on the
grass. Or get their letters at one time. Such
offences cannot go unpunished. These are
just a few of the laws which we have against
our minds. I won't enumerate any more of
them just now.
Yes, I wrote we had beat State to
Here are some fellows from Dallas U. going here who have several freshman credits. We posted a notice the other day that anyone not having 4 University credits would be required to wear freshman caps. Well those old boys came up and tried to spoon on me, and then finally they said, they wanted to know whether they were first or sophomores. I asked them how many 200 subjects they were taking, one was taking three and the other two but he already had credit in English 100. So here I was I could have made them either, freshman or sophomores. I couldn't afford to make them both sophomores so I made one a fish and the other a soph, but told him that he was not to take part in any
I can’t hardly believe that you are getting fed. I believe you just imagine it. I am telling you only weigh 150 now. Don’t think I weigh a lot more now.

but we didn’t. Oh, gather the papers only give meager accounts of that game. It sure was swell. Didnt drag a minute. Everybody played for all they were worth. Several Tuscau people told us after the game that they were expecting to get beat. If we could only have got a game a little later in the season, as it was our first game was a championship game. Yet that is the only game we lose. We play Austin college here Friday and on the 21st we play S. M. U. I feel sorry for both of them.

The boy that was hurt at Austin is alright. He only sprained a muscle in his neck. He came back yesterday and went
No one realized how much she needed the sleep in the car. The next morning we rode some more. Went out to the insane asylum and I saw some of the worst sights I have ever seen. I didn't know a human being could degenerate so.

Don't be surprised if what I do doesn't seem like it. I haven't heard from him yet. I guess because I haven't written him, I'll have to do that some of these days. I know more about Beth than you ever will know and at the same time I know nothing about him. Well, this time next week you and Beth will have been lost to each other. I know just don't feel that you are still in Houston. Gail's pictures sure are good. They look just like you. I'll have some taken when I send Beth up in a uniform and I'll send you some.

There is going to be a dance out here tonight, given by the Jello Club. Only club members and class presidents are invited. I don't know who to take because it is the night that Beth is leaving. I wouldn't want to stay but I knew she wouldn't and I don't blame her.

There is a girl here from Chicago that reminds me most of you. She's petite, small feet, brown eyes, red hair, and she got a blue dress just like your brown one. I am going to try to get a date with her for the dance.
classes today. We got another recruit from Tulane and he can sure kick a ball.

Your wish I could come up during the Fair, but I don't see how I can do it.
My roommate is going and I don't care if he stays, he talks too much. I took him on for some tennis this afternoon and beat him two love sets, the last set I had 4 - 0. I was getting disgusted, so I picked up and I finally won 7 - 5. He is to try a ma...baby. He's alright in his ways but I don't like his ways.

While I was in Austin, brother wanted me to stay over until Sunday which I did. I only got to see him for a few minutes though because he had to catch a train because out to the game to find me. I'll tell you, theseAustin homes sure come in handy.
