Dear Gaiyon,

Well it has been done and there is only one thing we are sorry about and that is that they made three points but those things will happen. We beat S. M. U. 144.

3. Of course I can't say that that is anything so great, because they simply haven't got a team, but what we wanted was to score more than either Texas A&M or Baylor and believe me we sure did it. That is the biggest score made by a Texas Eleven this year and it puts Rice third in the scoring list of the U.S. and about 100 points ahead of any team in the state. That is just to show Texas people what they have got. Our hardest game
comes next Saturday with S. S. U. at Baton Rouge. This team beat us 13-0. We beat them last year 6-0 and we are in hopes of doing so again this year. It is going to be an awful game though, for they are both heavy and fast. Oh if we could only play Texas again. We would beat them more than any 1-3.

Well I will have to leave the rest of this letter until tomorrow, because I've got to catch a car and go to the dance. I wish I were going with you, or be up there and go to South's tonight. Go but that would be fine.

We are going to dress the president in black trousers, the coat of a dress suit, a blue shirt, green tie and green ribbons around his sleeves. You tell you know it came out later.

Be good, darling.

Nov. 18, Oh Gaimor I had the bestest old time
last night. That is the first real dance that I have been to here in a long time and it was
fun. We danced until two o'clock and then didn't
finish the program. We were supposed to dance 16
dances and 4 extras; we danced 9. 2 extras and a
ladies' fawn. I wasn't near ready to quit but we
simply had to. Got back to school at three
o'clock this morning and got up at 6:30, went to
breakfast and all of my classes. That's the way we
poor fellows have to do. One of the boys had a car
and he took a bunch of us home, we couldn't get the
old thing started at first, and it was cold too.
Slept in a pile into a five passenger car. We kept
each other warm.

Your wish I could have been with you all last
Sunday, but... I am sending another clipping so you can see what was going on down here
last Sunday. He wrote up is pretty good, but
you ought to have seen the show. It was great.

Oh yes, I nearly forgot. The freshman
president was a funny, unembarrassed human-
last night. He didn't know what to do. He
looked just like a janitor. The worst of it was
that he didn't dance, and staged it. He said he
didn't know how to dance.

We had to put over 12 people off the floor because
they didn't go to themlx. Only resh boys are supposed
to go to these dances, of course, they can bring
whomever they please. Those old boys sure looked
cheap, they were mostly High School boys.
How do you like your new position? I think I'll have to get me a new job next summer. Variety is the spice of life in some cases.

A day has for been over to see Ethel. Being it I let her that he would be the first one to make a date with her, she hasn't written me anything yet. So naturally I don't know if I'm afraid Mrs. Steele don't know me or if she wouldn't have said what she did. Jim's afraid that I am going to the dogs if I stay in this part of the country much longer. I want to go north, but James would hate to have here and -- he well you know behind. Had a letter from James the other day.
No I'm not guilty of knowing the people you mentioned in San Antonio. Don't blame you for wanting to go to San Antonio xmas because I know what xmas without home folks would mean like to me. It simply wouldn't be Xmas, but just the same I hope you don't go, because as it is I've got something to look forward to.

I wish you and yet and Edward could stay some look or crook land here. Thanksgiving we're going to have a great time that day. The last football game and then the Soph dance.

Say you do hope that some one has something nice. I've got something up my sleeve but I'll wait until then and see how everything is. I'm beginning to get sleepy now, guess...
I've have to go to bed early tonight, but you know you have no idea how much work I have to do. I've got to write a thesis of between 4-5 thousand words for the end of this term. By the way, what sort of an experiment are you thinking of? Would you please?

Now I didn't change my room, I stand with those boys for one week, just to try it out, and law produces I didn't hardly study at all. There was always a big bunch in there, want way to use the phones. So I decided I would wait until after mum and then move in with another boy from Paris, this roommate is going to move there. I doubt he's in my room at all. It's a awful poor room.

You let me believe in influences, and strongly so. I could even tell some stories about the effect of influences.

A freshman just brought me a letter from Ethel. You know I think more of her everyday. She is one of the best friends I have too. She sure told me lots of news, and although she didn't come straight out and tell me about it, she hinted around and asked me if you hadn't told me all about it. She said she could hardly wait until Christmas, we'll prank Alexa her any, suppose there is a one to a woman just as there is to every man.

With love,
