Ma chérie,

Are you there yet? I can't see why my letter got there before I did, because I mailed them both at the same time, last Sunday morning, just before I went to church. I don't guess it would hurt much though, even if it didn't get there, would it?

No Tannebaum doesn't exactly mean a pine tree, it means fir tree. Weihnachtsbaum is the correct word for pine tree. I am afraid your German teacher is slightly off. I never really started studying this week ever since last Monday, was going to start Sunday night but went to the Majestic instead. Hebrew is pretty good but not as good as last week. Do you want to go next Sunday?
I haven't been to bed until eleven and after mostly after for over a week now, I don't think that I will get to go all tonight. Tomorrow is my hardest day. Went to Germany this morning and Mr. Blayney wasn't there but he left an awful nice exam for us. Oh it was lovely, but that is one subject I don't care how often they come as long as I have just read my lesson over.

You know, Gaius, dear, every time I get a letter from you I feel so much better sometimes I find I get homesick, because whenever I get that way that's when I'm most likely to do things I don't want to do. You don't know how bad it is to be away from everybody and every thing that is home sweet home.

I wish you would tell me some of those
things going to leave some of these days
now. You know you are awfully ignorant along
some lines.

Last Sunday in church the minister was
talking about saints and what they were.

Well I figured out how I was a Saint and
proved it; at least to my own satisfaction, some
of the girls from out here were down there
and all this week they have been calling me
Saint.

Oh it didn’t rain but just a little bit today
and it was clear fifteen minutes ago. I can’t
say what it is now. We are all having stills made
so we can dance around.

Gaiun, I hope your plans work out
Well, grace me. I have already figured out
all that we can do. We can just have the
hottest old time. You know it is a very long
bit years past March. January is almost
over. But listen don’t be surprised if I come
home in March or maybe go to Kansas.

Sure did work this afternoon. Freshman
Bio lab and they had the clay pots, well
I never worked so hard before, they generally
got away about 4:20 but this afternoon
it was 4:45 before they even started leaving
and then we had to clean up the lab. At
least we were supposed to. While things
were a little “lax” another fellow and myself
went out and killed 16 rats, now but it was
a bloody job. Still it was lots of fun. I nearly
died laughing.

When is going to come to Houston? Your luna
a letter not 4 a letter, in fact yours everybody
guess you get caught up Sunday.
Gainor wrote and told me to quit smoking. I haven’t smoked but five cigars since I was, and they were either given me, or some one bought them for me. I know that seems rather silly and I guess it is, but I want to know from whom I think cares tells me not to do something like that. I will quit. And God bless you care, don’t you? I would write home and tell them to tell me that, but mother would think that I was getting in bad company and never would quit worrying. C.

Ethel going to married at her home or here in Houston. Say Jolene know
how to act at a wedding. I'm liable to get tekkled and bawl every thing.
I'm just using a little college slang in this letter every now and then.

As soon as we have some decent weather down here, we are going to take some Kodak pictures, of course I can't tell when that is going to be.

The Freshman are going to have a dance out here next Saturday night. I am not going but I sure am going to have a good time. Of course we have got to have some punch, and then take an automobile ride. We have to surprise cars but that is hardly done.

The boys always did it last year, and we have already planned a trip for next Saturday night, so if you hear about an automobile race in Houston, why—
The sophomore girls are going to give the senior girls a dance next Thursday night. They are meeting the dates, picking out the programme, and even paying for the dance. The only thing they are not going to do is come out two after us, we are going to have to go get them. I never was treated so royally before, I feel once.

Well, I should say that this year did start out wonderful, and I hope it ends the same way. I believe that I could write more than about. I believe that you said that what one did on New Year's he would do every day during the year, so that in reality or in dreams, count. If they do it sure is the truth because I spend most of my time doing lectures that aren't very interesting, dreaming. It certainly is a great thing that you don't have to do so.

My math class is assembling, one of them (I mean students no I mean fellow) just left for the Adirondacks to get some cheese crackers, so you receive have some cats along with all our hard work.

A boy like by the name of Butch now from South Africa is worrying the life out of me for some stamps, first I am a Dutchman, then a German, then a Swede, then as far as I care to go.

No it never gets cold in some parts of South America, does it?

goodbye, my dear, lots of love and
