Dear Maureen,

Being as how you are up there and I am down here, I just put off my lecture. I don't think you would mind it very much anyway because you know I am naturally chicken-hearted. Don't you think so? I haven't written anything on that theme yet, but I sure have read a whole lot and am going to start writing on it tonight, and then all day tomorrow. But you are sure wrong lonely when you say that you don't seem to be able to help me with anything, you do in just lots of ways and simply don't know it. I can't exactly explain what I mean but then you understand don't you? If you don't, you'll have to learn someday. I suppose about the time that she has to learn some g-
those strings you are always telling me.

I wish I could have been there and gone to that minstrel, many thanks for the program. I sure would enjoy sitting in that old cliff glee club again. you know I haven't been in that place for an awful long time. I never will forget the time steel James and I went in there and saw you and Ethel, and James wanted to go sit with you all and I wouldn't go because, oh well some of the crazy ideas I am always getting into my head.

you and Ethel still owe me a nickel anyway. But that's alright
I've waited this long so I go wait until this summer.
The second game that was played with [name] was a chance to lose. The first game we won by only one point and the ball was in the air when the pisto was fired. There was a special train that went up from here, with over 150 Rice students on it, for the second game we got the round trip for $2.50. I didn't get to go, and am sorta glad that I didn't, because the whole lunch was half dead the next day. It's going to Texas State now, but I don't much think that they will do it. They play four games also, two at Austin and two at College Station.

Ginner, you know I felt real mean about that dance the other night. I didn't have a date to go and so didn't figure any programs, because you can "clap in" on all of the dances. I wasn't figuring on going over until about 10 o'clock, so four or five went walking down the boulevard towards Eagle street, finally caught an auto and rode down, on the way back we stopped at a house where five girls from Rice stay, and they gave us some of the best fruit cake we've ever had.
but gracious me, we weren't fit to be seen outside the campus, so we didn't go in, but left. On the way out we wanted to catch another ride and had an awful time getting one, finally a Ford with two girls and a rather old lady, slowed up and when we started to get on they started up again, but three of us got on anyway, well when we got out to the institute and wanted if they wouldn't let us get off, but started going real fast, they took us to the end of the boulevard and then brought us back. I started into get ready for the dance and met "Piggy" well be called me aside and there the troubles...
started. I was to go in and dance a little while, and in between dances was to find out where the cream and cake was kept, also to unlock all the windows and doors possible.

Well I did it alright. I stayed for three dances and then went and put on my Kaliki uniform and got ready for business. Pig and myself and two members of the Head Committee crawled through a tunnel and swiped 4 gallons of pealed peaches and 2 gallons of pineapple. These were carried to pigs room on the fifth floor, well we simply had to have some sugar but that was easily got. We ate one can of pineapple and then started for the ice cream. Our first attempt was a failure, the
watchman caught us in the kitchen, we'd be a pretty good scout, and we led him on
the believing that we were simply wanting a little punch and he helped us get that. Of
course we had to leave again. Well the next thing we knew they were serving the cream, we
knew if we waited any we would have to work fast. So back we go. Peggy crawled thru a
window into the storage room and got a five gallon pail. Than I just thumped
containing the cream, and bounded it out of the window, well away. We go (10) with five
gallons of cream. We knew something was going to happen as soon as it was
missed, and four guys went back to see how things were getting along. Well the first
thing we saw was the nightwatchman followed by Butter, and another dog started to search the
rooms. Here we still had five gallons of cats
in Peggy's room, you should have seen us
go up after that stuff. We had to hide it
way over in the woods, and then we forced
the fellows with the cream, and at last rate.
I knew we ought not to have swiped the
cream, but we simply wanted some
excitement and we sure got it. There is
some more to this story but I guess you
are already tired of it, so I'll save it and tell you all about it when I see you. You know I'll get so much to tell you that I'm afraid you'll have to run me home the first night I come out. I try to leave on two the other nights, that is so long as it isn't New Year's. How long can I stay that night?

I know that you all are having a good time and I wish that I could be there with you, but if I can't, I guess I simply can't.

I would like to tell you what Jimmie said, but I'm afraid you wouldn't exactly understand.
it. Anyway it doesn't amount to very much, but I would just like for you to know what someone told Jimmie.

Sweetheart, I don't know any thing you have done that I don't like, it is more likely to be the other way, because I know I often do things that I ought not to do.

Say gawd, I want to ask you if you think that I'm changing for the better or worse. Now tell me just what you think.

Listener, honey don't you show that German, I had rather translate it for you myself. I don't believe that he could read it anyway.

With lots of love

otto
