Dear Gainor,

Honey you don't know how

I hated to hear that you weren't going to come down, I sure was looking forward to that day but something seemed to tell me also that it was too good to be true. The mail hadn't come when I left to go to the ball game but Bob came out again and he had had a letter from Ethel saying that you couldn't get a pass, so of course he told me. We played J.C.U. this afternoon and won 3-2. Butler was again the hero. Yesterday we lost our first game and that to J.C.U. 5-2. It was our game until the eighth inning and then our pitcher blew up and the game was long gone.

Talking about being disappointed, dear, I'm wretched, you know how you feel whenever you wish for something real bad and then don't get it. Ethel and I & are really coming over they just don't guess I'll get to see much of Ethel - but then.
It is really time that all white folks should be in bed (1:30) but we went visiting tonight. Went to four different places and every one of them gave us something to eat. In fact that is the way they got rid of us. The last place we went we got some candy and I still get a whole lot of it left.

I sure hope we beat Texas, we aren't going to play them here at all. That's the trouble with them, they are beginning to realize that they can't just come out and walk away with it and they know that it is Rice who is keeping them from it. Neither does no Texas have a bit of use for Rice, but just wait. Texas is not going to be in it at all in a few years. No that is another Jackson on the team, he is the fellow who is going to leave Brown's place on the football team next year. Spring training has already started and if everybody comes back and isn't on probation I believe we will have as good a team as we had last year or just better. Beating Texas in football is one object and I believe that it is going to happen.
I am sending a few pictures along, they aren't much, but they are all we have got so far, you can see how I look in my U.S. Marine uniform. you better join the Red Cross because we are going to war and you need to get hurt and I would like for you to be my nurse, if you would.

Why won't Janmie get to come home next September? I saw in the paper the other day where they graduated 183 men three months already twice so as to fill vacancies in the officers ranks. They sure must be in real need of men, there are men out here all the time making talks & the boys and trying to get them to join, I wish they would because if we get enough men for a company, we would know each other and have our own officers etc.

I sure hope you aren't going away next Summer, course I know you get tired being up there all the time, but you know three months is a peep...
short especially during vacation, you
wait until next fall to come see Nellie, put
her some football games.

You have the wrong idea about catching
grasshoppers. You must always take a
little salt along, and then use it in the
same way that you would if you were
trying to catch a lizzard.

I'll show get everything I can, of
course I won't be able to get into any
of the buildings, being as how it is Sunday,
but there is a lot to be seen anyway.
I wish he could get here on Saturday
because we have the triangular track
meet here next Saturday between 10 am, 
Texas & Rice. I don't know what
Third of a track team we are going to have
so many of the men are on probation.
I won't promise that I'll go to church
next Sunday because maybe
I get went want to go, but if he does
why I'm willing to go. My
English prof. (one of them) is going to
start a class at the Third Presbyterian
ta non sectarian nature, he
wants us all to come down, but I
have just about decided that leaving
him three a week was enough
