Dear Gainer,

I sure am glad that you are still coming, I believe if you write now and said you couldn't come down here, I'd go crazy, because I sure am depending on it. It is just three weeks from today that you will be here, the big game will be over and I hope that we will be going to a dance that night. The sophomore class is going to give their dance Saturday night. We were depending on them to have a dance Thanksgiving but they aren't and we are going to have a class meeting Monday to decide. Do you want to go? Now don't say yas just because I ask you, but if you want to go we will go, but remember that I am not much of a dancer. I haven't been to any yet and don't intend to go.
to any until Thanksgiving and only then if you want to go I
know you want to be with Ethel
and I can't ask them to go,
because they don't go to the Institute,
I can't blame you for wanting to be
with her. I know how it feels to be
away from your best friend.

Talking about being lonesome
last Sunday, well I studied and
day up until five o'clock and
then John and I went walking.
After supper I studied some more
I don't mind studying but sometime
it takes half an hour or more to get
started and then I sure have to
keep it up hard or my mind or
what there is left of it surely wanders, oh Gaimor I sure want
to talk with you I believe you
understand me better than anyone
else, and anyway just to have a
heart to heart talk with some one who really cares and I believe you do, though I may be mistaken, counts for a whole lot. Just to think about you all being up there having a good time and then to think about what I am up against, why shucks I am not worth a cent.

Practically all your officers have joined the Aviation Cops, John went down this afternoon and took his first physical examination. He has been teasing me ever since, about being scared to join, etc. I won't join that though, I don't like it, there isn't any fun flying around in the air.

Yesterday there was a big military parade here, it sure was good. 20,000 were supposed to be in it, I know it sure was long.
We had to march down in formation but that was all, I am glad to say.

Joan Ethel, she was on her way to go up in the Gulf Building to see the parade.

I have been wanting to write John and also Martha a letter but I doubt that I ever will get a chance.

I should say the X-mas exams will be harder than the ones we just had, those will be finals and a grand final to they are going to be for me.

I know this letter is awful interesting but honey I don't know what the trouble is, I am just getting to be the biggest grouch; you know how fussed to get this summer well I am that way all the time now.

Saturday we play Southwestern.
P.S. Have you heard the piece of music, "Joan of Arc or Adventure"? They sure are pretty.

This is the last game we will get to see here until Thanksgiving. Oh yes, the next game is going to be played on our own field instead of at West End, where they played it the last two years. I sure am glad to because the field is so much prettier and things are better in general.

It hasn't been cold here hardly any, but I guess that it will get so.

Chrys I got some of the best pictures of the Texas game. I'll show them to you just after we went over for the first touchdown. I'll show them to you when you come down, so you see you just naturally have to come.

Well honey I must study some French so I guess I had better give you a rest. Many, many, thanks from John and I ate for the candy it sure was good.

With love, Edith.
