Well sweetheart hers jam leaving again. Now while the train has stopped to let a Wampus cat cross the track i can write alright you see how awful it looks at the beginning. I certainly have been lucky on this trip so far. Punk was on the train with me as far as Mineola how was going to Tyler to see lady punk so he says. He was at the depot waiting for the train when I blew in and we have been having...
some time ever since
there was also another
boy on here with whom
Puck used to go to school
and they had been to France and
hadn't seen each other
for a long time, so we
then had one more time.
The train has started
again. We have stopped
again but are already starting
up again so I can't
write anything. Now

Did you say hat, darling I am about
to melt. I never was so uncomfortable on a train before.

Well I guess you are enjoying the Grand Opera show now as it is about 2:45. Didnt you say you were going in the afternoon? I feel I know you liked it. Just passed thru Big Sandy. We were where they get the Sandy coal. Not the Big. Just stopped in Longview in hopes they would start another Racist riot while I was there so I
could get in it. You

trying to cool off but
it's kept to impossible.
I guess darling I sure
did hate to leave you
last night and wish
you would have
gone to town with me.
John and I didn't
do a thing but sit
up in his room and
talk, we tried our
best to phone punk
but we never could
get him. So my just
talked it seemed so
funny to hear him talk about his wife. He says she cried two days and two nights before she left. She is only 18 yrs old. Jashed him how it happened that he got married and he said he was up in Georgia working and she came up to see him and said let's get married. He said alright, but I haven't got any money. Another fellow bought his marriage because he say it's alright for
I'm just passing my third lake and for the third time for got to sweat white I watch a whole truck top swim around and cool off but just wait I told you didn't I that John was going to Tempico to live. He showed me his passport last night. I just got into Marshall two minutes late left Mineola 40 minutes late would have got in here on
time but had to slow up while a freight train got on a siding. We were making 60 miles an hour and if we hadn't been flagged there would be no more freight train.

John was in the Army out at Berkeley, California. He was a blamed aviator and I told him I didn't have any use for his kind. I simply can't get over that boy being married. It simply doesn't seem possible. He asked me when I'd be back.
