Sept 19/1919
On the line,

My dear Sweetheart,

We just stopped to get a buffalo pig up the track at 60 training so, he thought he was in the river. I have already passed them over cliff, I waved at you but don't think you saw me because you didn't wave back. Stopped again about

Know what's wrong unless it's
some more of the bad faculty.

It's just beginning to realize how strong that you really left you behind you. I know for the last two weeks at the time you always won with you.

Cedarhill - I don't know which it is - most cedar or hill.

P.S. steel raving: Venus. Very different from the one you are used to seeing in pictures nothing beautiful about it.
Still raining. I think the engineers and firemen have gone on strike. I have been here about five minutes. Stale over new going again.

Another Burg - my mistake. This is West. I guess the other was Midlothian. Any way the same capples here. (more rain).

Alvarado - put two passengers up in the truck!
They weren't supposed to go any further. Either here on the train coming from H-Worth or in the same train you came from Hardwurz on. She was lucky about my sleeper. Of course I had to keep an upper berth as soon as the train stopped. I got off dead beat for the ticket and was
lucky enough to get the last one. Just got them on time because there were lots of people behind me. But being the early bird I got to work. I know the train will be crowded because the depot is. If the train doesn't get any later it will be in here at 10:45 and leave at 11:10. Here's hoping. It's only 10:10 now. Went in to get a cup of coffee and they
gave me a 20x check
but I made then
back up to aclum.
I guess he let me
even put ya dine.
Well honey, the
train is live and
so on it, guess they
made up most of their
true because they
came in at about 10:15.
They never pull way
up to the depot here
and as my car was
the way last one on
the line, believe I
could have saved
time by going to
Ft. Worth and
walking to the back end of my train. On the train from Dallas to Auburn there were three boys, who I believe are going to Rice, because when they saw my belt buckle, I heard one of them say something about it and they have been watching me ever since. I was carrying my pencil handy, you know the big one, cause I believe it will be very handy as a trill. While sweetheart we're
Just about ready to leave, pulled up about 5 or 6, the con - get my ticket and they are getting ready in general. It is now 10:45 and I'm getting awfully sleepy. I hope I'll dream about you, sweetheart. Since I can't give them to you, I'll send them, and with them all my love. Tomorrow I'll tell you all I saw and all that didn't on in Houston. Good night, darling. Pleasant dreams.
With a world of love

P.S. We're just leaving.

Saturday, Sept 20

Good morning, Sweetheart. I guess you are on your way to work now. It's 8:00 o'clock and I don't know where we are... I do know it's somewhere around Houston, because everything is flat as a board and not a true insight. There is urgently something on the track again.
I can't see any reason for us stopping in this place. We are moving again.

Rice Institute.

Well, sweetheart mine hire. I am back at the old place. I haven't been doing anything but standing hands. I never saw the like of old men back. A freshman is almost a scare article because so many the boys are back, only some
that left during my sophomore year are back, and goodness knows so many of my old class. It certainly does seem fine. My roommate so far is a tall boy we met down town on the street that clay at noon isn't that peculiar. There is another boy named Carr who used to go with Hutch and I all the time who wants me to room with him and if we can arrange it.
we will do so, and I used to always raise — together especially on freshmen and making raids on the kitchen. Have seen Thomas and Punk and oh Darling just oodles of others. My trunk hasn't come out yet so I'll have to finish writing you on this paper. We will go going in to see Bob as soon as I finish writing + you. We certainly did have a fine dinner.
and the boys say it has seen that way every meal, just think of having your choice of drinking sweetmilk buttermilk or tea. Eating good steak, potatoes, lettuce, tomatoes (sliced), pork and beans, etc., and then good peach pie. I think I will be able to get my place back in the lab. It may be that I have to wait, but I will be soon. This certainly is a cool room, right?
Across from me is Nash. You remember him, don’t you, sweetheart? Another by from Dallas named Randlett.

The train was two hours late this morning so I didn’t get out here until 10:30. They certainly have relieved me of my poor dollars. Honey, you were right about his room being $32 a term. But that doesn’t include meals you have to pay...
25.00 a month for those, Do you think that is high? I have been running down here if and on all day and is doing so now but not enough to hurt anything.

Well darling Jan going to close this now and will write you sometime tomorrow. I send this special so you'll get it in the morning with all the love in the world

Sweethart.

Otto.
