Sweetheart this time last week and I was debating whether or not I should go to Dallas and then about two hours later I decided I had better go. I am really better situated to go up this week because I haven't any exams scheduled for Monday. You know the one I took last Monday I flunked in, 50% of the class did the same. That doesn't upset me at all, but I was just a little slow in answering questions, and so I didn't get everything right that I answered and didn't
finish the guy either so there you are. Organic chemistry is simply awful and believe me that bird doesn't know what it means to go slow, he's worse than a race horse. We are already trying to frame up something so that we can induce him to slow down. You know instead of writing formulas like we are used to we have to write them structurally and in doing that it depends entirely upon where you put the bond, as to what compound it is. Let me show you:

\[2C_2H_5OH + 2H_2SO_4 \rightarrow 2C_2H_5SO_4 + 2H_2O\]
you remember that is the way we learned it in high school and also here until you get to Organic and then the equation would be:

\[
\text{H} - \text{C} - \text{C} - \text{OH} + \text{H}_2\text{O} = \text{H}_2\text{O} - \text{H} + \text{C} = \text{C} + \text{H}_2\text{O} - 3^\circ\text{O}
\]

and this equation is awful simple I won't write any more though because I know it's Greek to you just like it is to me. It isn't going to be much longer though, because I'm going to start "toning" Organic.

The guy I had Tuesday I believe I made good in because I knew something about it.

Of course it has raised
every day except Wednesday and judging from the cool weather we have been having today, I would say that it is rather cold up in Dallas. It was hot when I left here last Friday and cold when I got into Dallas, so I guess when it is cold here, it must surely be cold up there. It isn't one bit cold here just a little cool, about like it was that night you and I sat out in Ethel's swing. Oh honey I get all worked up when I think about Thanksgiving. I wish it wasn't so far off.
I went out to see Ethel last night, she sure does want you to come down. They are going to have to move tomorrow and so we did a little packing last night. They are going to stay over at Boos' sisters until the apartment is finished. It was supposed to be done by the 15th but they have been unable to work on it on account of the rain, so grounds keepers don't know when they will get it done. Sweetheart, I'll go crazy if you don't come down here Thanksgiving now; but I know you are unless something
extraordinary happens. We sure will have a good time. Only hope that they day is as pretty as it was two year ago.

Tomorrow we play SW. so while you are watching OKLA get beat I am going to watch S. W. get beat. Mr. Harland is going up to Dallas tonight to watch the 3:0 game he's assistant coach so you see we will have a spy on the men and undoubtedly Texas will have to open up in order to beat OKLA. so he ought to get some good pointers.
This time last night and I could have packed up and come home with pleasure, after I came from church. Let yesterday afternoon I was so disgusted and down, out that I would have enjoyed doing anything. I didn't want to go to church at all but I knew it is good that I did because I got to feeling a whole lot better.

I have been thinking awful hard about why that could be that Mr. Morgan was talking to, but honey I simply can't imagine. Did the man say he lived
in Houston? I simply can't imagine who it could be. Was he bald-headed and tall? I sure would like to know who it was. You know sometimes I think that I am trying to do too much, by working all the time, but I know that if I wasn't working I would probably sit around in my room and kill time or walk around the cloisters doing nothing. So, I had rather work, it gets awful tiresome from 8-30 to 6-30 every day, and then again at night, but you are more or less your own boss and that always counts.
for a whole lot.
Yes just tell Edward that
Francisco got one good
paddling anyway, because I
was present and saw that
it was well done. He walks
like he's got bed springs in
his legs, and is an awful
awkward looking human.
I think somebody ran it
with my roommate, I haven't
seen him since supper, that
is the way I generally do.
No sweetheart I won't stay
up a bit later than I have to.
But Mondays, Wed. & Fri. I always
have more than I can do (almost).
With all my love.
