Dear sweetheart,

I guess you are in bed by now, and I sure feel like going, but have some more studying to do and simply can't stay awake. Think I'll have to start telling something just to keep me awake.

Honey I'm simply disgusted, got so much studying to do and it seems like every time you go to class they get worse. You have no idea the amount of work we have to do in organic now for tomorrow we have five problems to hand in, 10 pages.
additional in text and a gnuh, I tell you it's simply to much. None of us are getting it. He's simply going to fast. We have to read half the library before we can do our lab work and then we have a gnuh before and after we get through with each experiment. I'm a doomed man in that stuff I guess.

My roommate has been sick in bed all day with what he calls the gripe. He's feeling better tonight and is setting up studying. We already had a coffee and some flowers ordered for him, but don't think we will get to
use them after all.

I phoned Ethel again to-night but couldn’t get her, the phone was out of order, so I phoned out to Boo’s mother and she gave me their address 1311 Hamilton. Isn’t that the same thing that I told you yesterday?

Tomorrow is already like.
I only hope the rest of this month passes away as fast as the first part has, come will be glad when the time comes for me to go to the station and meet you darling.
I resigned as president of Naturalist Society & also as
president of the Pre-Medical Society today. I just don’t feel like I have enough time to do justice to the work, and in a thing like that you can’t afford to do it just halfway. I haven’t heard any more about it yet, but I know they will accept them, I’ll simply quit if they don’t.

There is going to be a football dance given next Saturday in honor of S.M.W. but I am not going. The sophomores are going to have one on the 21st of this month and I would much rather go to it and maybe I will and then when you
come down sweetheart, we will go to the Rice dance.

You knew I told you yesterday about the lunch having too much pop, well it has been keeping me up all day long, I sure am glad and proud of it too. It makes you feel more like yourself than if you just sit still and hold your hands.

Well honey you see, before I started writing this letter I was almost asleep and now I am wide awake, and it's like it is good for another hour. I always get sleepy from about 10 to 10:30 if I can
get over that, then I am gone for an indefinite length of time.

Mr. Pinnon told me Sunday that if I ever left school just to let him know and he would put me to work. If I had stayed with them I would be making $40.00 a month now, but that would probably only lasted until the end of the year or possibly this month. Mr. Bagley is chief clerk now and I know he will take me back if I ever want to go and he can possibly use me. Lord isn't up there any more, he is still with the
Top but not the Purchasing Department. Otherwise everything was the same. Now did I do wrong by coming back to school?

Well sweetheart I am going to try to study some work now and see what I can learn for tomorrow, good night and pleasant dreams darling.

With all my love
