Wednesday

My dearest sweetheart,

I just came back from lab where we have been grading papers ever since supper, and we still have some to go. We have got so now that instead of one person grading them all, about forty of us grade them, each one taking a question, you see in that way we get through a whole lot quicker.

I sure was glad to hear that you got back alright and also that you had a good time dear. I don't
Know whether I want you to spend any of your vacation up there or not, if so many men want to flirt with you you see dear that's because you are so good looking and sweet. Haven't I always told you that you were? I sure have heard some wild tales about that place anyway. Just a number of the boys here worked up there last summer and they are certainly full of tales about that place.

Well honey we won a track meet from state today and it surely was a "peachy" meet. Have you ever seen a track meet
Dear, the final outcome was Rice 63.5, Texas 53.5.
The relay race was the deciding factor. Had it been
now that the score would have resulted in a tie, but
Rice won it easily. Honey
that was the best thing I
have seen in a long time.
It certainly was pretty and
awful fast. We took 10
out of 15 first places, so
you see we have got a
pretty good track team
left after all. But if we
only had what we lost,
we would have a world
beater. We had freshman
lab this afternoon but we
will save it for it that they
were three by three o'clock. The meet began at three, however, so I didn't get to see the 100 yard dash and the 120 high hurdles. We won the 100—it was run in 9 1/5 seconds. Got second place in the other.

Sweetheart I am sorry that you had to catch my lonesomeness, but honey I've still got it and will have, dear, until I am with you again. Do you think that time ever will come around? No darling if I were to go to bed at 10:30 I would be getting up at 4:30. I have gotten so that I can't sleep after six o'clock as it is and
goodness me I go to bed late enough, but I just never am sleepy. I can't get sleepy in the daytime unless it is that I have to go to a lecture right after dinner and then I do feel all tired out. I used to be that way in High School though. I remember when I used to go in Miss Baker's class and it was an awful effort to keep awake. And I remember something else that happened in that class also, do you honey?

you go down and tell the Baty officials that you want them to put our sleep
to Houston, and smile at them and seemly clean, and I believe they will do it. Oh my, but I sure hope so, daily.

I get so excited whenever I think about you coming down here, before June.

This morning there was a man who brought his little boy out into the rain, to see if he had any disease of getting hydrophobia. He had been bitten by a dog, but the man didn't know whether the dog was mad or not, and so Dr. Chandler questioned him, and it finally developed that some boy had pulled the dog's tail, and so he turned around and bit the one nearest him. I guess...
and this little bit happened to be the goal. Well it was a pretty bad bit, but of course not of an infectious or pathogenic type. There is always danger of blood poisoning setting in from a bit of any kind, especially if not cared for. People certainly are scared of it, you can’t blame them, but it does seem funny and what is more peculiar so few people seem to know anything about it, and there is really not so very much to know, and it is most certainly a prevalent disease.

Sweetheart I see Devil also have to give you a few lectures in bacteriology. Honey
they can't bite me, but they can very easily enter the bloodstream through some sort of an abrasion, also by inhaling them, but there isn't any risk dear, if you aren't all careful and saw that.

Sweetheart I can't see how that insurance can be paid this March when March is just over and I always sent in a payment at the end of the month, for the month just passed. But we should worry. The way they work that receipt business is that if you get one for any month it means that all payments previous to and including that month...
are satisfactory. I am sending you with this letter the three for January, February and March.

Darling I might have a whole lot on my mind, but never so much as not to be lonesome for you and wishing that we were together. Yet I have to admit that my time is pretty well taken up, but I always get time to think about you, and if it weren't for that my life would certainly be empty. Pleasant dreams to you dearest.

I love you - with all my love,
