Friday.

Sweethart dearest, I am so glad to hear that you are feeling alright again, and that you haven't got the blues anymore. Don't get them again, dear. It's bad enough for one of us to have them much less both of us and I know I have them enough for us both.

Honey whenever I get a letter from you like the one this afternoon it always makes me want to go right down and get on the train and come home. It certainly was sweet dear.

Say if they get to having the flu again in that house you more, will you please.
to much so you just stay away from it. But maybe it’s the influenza and not the flu. How about it? I certainly hope it is nothing serious, and if it is you stay away from it, please.

Today was our first real summer day. It was really hot today, so much so that even the boys didn’t wear coats, after dinner. This has been an awful busy place to-day. They are having the High School district meet, here, representatives from a half dozen or so counties around here. The preliminaries in the track meet were held today and the finals will be
held tomorrow. Then they also had about a dozen basketball ball games, just the boy and then the girls. Then beside all of that there were the debate and declamation contests. Oh and the speeches some of them had. I wanted to hear some of them but didn’t get a chance to listen just to show you how loud some of them talked. I was standing on the outside of the Bug lot, which is at the end of the physics Bldg. and heard one by saving away, way up in faculty chamber on the 2nd floor.
The Administration Bldg. I of course the voice does carry 
very good between those 
bldg but ordinarily you 
couldn't hear a mouse talk 
way over there. There were so 
many people out here today 
that sometimes I wouldn't 
Know whether I was at 
school or at some fair. Then 
in lab this afternoon there 
would be some coming in "visiting" all the time. 
I guess I will be getting 
typhoid fever now. Someone 
broke a test tube containing 
the germ this afternoon 
and I had my hands all 
in it before I knew the
tute was busted. But Mr. Chandler made me wash myself good with mercuric chloride, so I guess that killed them all. Honey, you have no idea how careless some of these girls are. Why they can't do anything you tell them, and I'm always absolutely a wreck whenever I come out of there. It's the worst strain you can go thru.

Well true to our old form we lost another baseball game this afternoon 3-0 and that's SMU. It was a good game though, with the exception of several errors. We play them again...
morrow and then also
have a track meet with
them. Everybody here is cer-
tainly interested in track,
because it's the best team
we have had in quite a
while and the only one
which has been able to
win anything. You know
Fred Harris don't you
sweetheart, he is from Oak-
Cliff and runs the ten mile
race. He is awfully good
at it too. The last meet we
had, though, the one with
Texas he was sick and
naturally didn't do so well.
Still men have been wanting
to bet that they have a man
who is going to beat Lindsey in the 100 yard dash. Interest is pretty keen and you can sure expect a hot race. Lindsey generally runs it in 9.75 sec., whereas in the dual meet between SME and R&M, an R&M man won first place in 10.2 sec. Something certainly must have happened to speed their man up if they intend to win that.

Sweetheart dear, I feel wish so much that you could be here so that we could see it all together.

I would enjoy it a 100% more if you were here to enjoy it with me. I surely hope...
that you want to working while I am out there having a good time. I would hate rather have it the other way around.

We are doing some physiological chemistry experiments now in organic chemistry and believe me they sure are long and hard. One of them is to take 100 gms of horse hoofs and after going through an awful long process the theoretical yield of your product is only 2 gms. So if I get any I'll be thankful. Another one is to extract caffeine from tea. I am not so sure whether I will get them by the first of the month.
I will at least be there before May 22nd. That is the day the lab closes in Organic.

Nash is feeling tonight about like you did honey. He hasn't heard from his girl in 3 days and he's a bit in the air. He got a new nickname now. He calls me "Shenney" and I call him Kathy, so you see I am getting real thin, are you still getting fatter dear?

I phoned Ethel tonight and am going out there tomorrow night. I have seen her out in about two weeks now. I am sure that I won't have an exam this last
Friday afternoon honey. They said that all seniors who had one on that day would be allowed to take it sooner, so I guess I will be safe in saying that I haven't any. Anyway darling I don't want you riding that train all day Friday. I tell you out so. You come on down Thursday night, I won't come, and then I'll meet you Friday morning. I never get excited when ever I think about that. Thank you a thousand times for what you told me sweetheart. You see there is just another case & where without yer I don't
Know how I succeed get along.

No sweetheart Ethel isn't a good swimmer and I know you can swim better than she can. I hope that we go to Galveston or to Sylvan while you are here and then we can swim all we want to count me.

My eyes are alright, thank you honey. They haven't hurt me a bit until tonight and then only a little bit and I think that was because I am sleepy.

Send me some more to-morrow sweetheart. pleasant dreams. I love you - write all my love dear.

Saturday.
It is just about time for the baseball game with SMU, which due to the track meet begins at one-thirty. I am just going to write a little bit before I go out and then will tell you how we came out later. The High School meet is over now I think, they sure did make enough racket out there this morning and it was awful hard to sit up and listen to the hours of lectures. We tried to talk the prof. out of having economy today but he said he thought it would be to demoralizing. This spring fever certainly has got the best of me I don't
want to go to classes any more at all, and they just keep piling work on. Well sweetheart it is time to go so I will finish this later. I sure hope you aren’t working (1:30) later.

Sweetheart dearest - the meet is over and everything is getting quiet again. We lost the ball game 4-3, which we should have won but errors will lose anything. But the big event of the day was the track meet which we won 82 1/3 to 29 1/3 rather walked away with it. I would say a Rice man broke the state, southwestern and southern record in the broad
jump, going 23 feet and 14 inches.

Monday at Austin, Texas, FM and Rice will compete on the track, but the only thing that is going to be run is the relay and if we don't win that I will be sadly disappointed. We have an awful good track team.

Sweetheart mine, I wish I could see you tonight, I sure am lonesome for you, and just miss you so much. I will write you sometime tomorrow dear. I hope you are still feeling fine.

I love you— with all my love.

Oth.
