Sweetheart darling I went down to mail your letter and then went to the show alright [sic]. I sure did like it and even stayed to see it twice dear. I think that sure was a good looking girl in it don't you? The reason I stayed twice was really because I knew I couldn't get a car out here for another half hour and I would lots rather see the show again than walk the streets. Then when I got out to Eagle street there wasn't any car yet so I walked on out, and with the moon as pretty as it is honey I sure did wish for you. I expect you are in bed now. You ought to be anyway, pleasant dreams to you dearest mine.

I haven't had much luck studying tonight, U guess I would really do better if I would wait until tomorrow, but I at least wanted to look over my notes and get a general idea of what I had to learn. I found out I had a whole lot to learn alright.

Tomorrow I am going to study chemistry all day. You see I won't have much time after tomorrow because Thursday will get around pretty quick. The last two lectures he has given us have really been on physiological chemistry and I got enough of it to know that I would never exactly care to take it. Why some of the formulas are 6 & 7 feet long. That's not exaggerating. It's awful interesting but I don't care for some I've had any. It seems so funny to think that in a couple of weeks school will be out, and you will be here. Listen honey don't you even think that something is going to happen to keep you from coming down here, why it would break my heart. But honey it isn't going to be my party alone. Let's say it is going to be our party that sounds so much better don't you think so.

Honey the time has been dragging along for me too. I'm getting so I am always mixed up in the days of the week, and am always a day ahead and then when I find out different it always makes the week seem so much longer.

I guess mother left to-day [sic] at least she said she was going to. I wish papa would hurry up and let me know what he is going to do. If he is coming down here he had better say so, or he won't be able to find any place to stay when he does come. He ought not come down before Sunday morning any way. I haven't any idea when he is intending to. I don't suppose brother is coming down I don't know. I haven't heard from him in a

month, and I asked him about it then. I should worry though, I don't want anyone but you anyway darling, my how I wish I were with you right now.

No sweetheart I am feeling pretty good again now, only I look like I had been on a big spree, I'm not suffering any anyway and am absolutely happy dear.

No honey when I was a senior in High School I wasn't afraid of you, but I was so timid and self conscious I couldn't do anything. You have no idea how I felt those nights when all of you would go walking up 10th street together and only me would go the other way by myself. It sure did hurt and I was just crazy to go with you all and you especially. I know better now darling. I love you dear.

With all my love,

Otto
