**For Over 4000 Years**

Wood creosotes have been used as a wood preservative. From the Ark to the Dirigible it is a long ways: From the original wood oil to Pentaco Paint and Stain it is a great step. Wood oils have always taken a leading part in all construction work where wood is used. Science has found substitutes for all things, but oils from a pine tree always hold a prominent place.

Why use a substitute when you can get the genuine and for less money. We will gladly show you.

**RLENTY OF CLEAN TOWELS**

The "Easiest Way" is with an ELECTRIC WASHER

What a fearful task it used to be to keep the towel bar filled in summer times.

But now you whisk them into an electric washer where the darning and mud go thoroughly through and through them, and out they come—clean and clean and white.

Summer housework's hard enough anyway. You deserve every possible-labor-saving device. Begin now to buy an electric washer on easy payments. Use it as you pay for it. Come in today and make your selection.

**MANY FIRES IN CITY YESTERDAY**

One of Three Small Roof Blazes—No Damage Done as Firemen Succeeded in Extinguishing It in Early Stages.

The houses at 104 South Andrews, No. 7, and 106 South Andrews, No. 1, were saved from destruction yesterday. These houses were nearly wholly destroyed by fire the night before. The firemen succeeded in preventing the spread of the fire, which was started by the use of a No. 16 oil lamp in the kitchen of one of the houses. The firemen were called at 11:30 o'clock last night and arrived at the house in ten minutes. The blaze was discovered by a neighbor who had been watching the fire from his house. By the time the firemen arrived the fire had become too great for them to hold back and the rear of the house was completely destroyed. The front part of the house was saved but the firemen were unable to prevent the spread of the flames to the next house.
