Red Receives Nod As New Executive Of RMC And Store

By LYN MARTIN

William S. Red, III will be new manager of the Campus Store and Director of the Rice Memorial Center, Dr. Pitzer announced. The appointment will be effective November 1.

“I understand there have been problems with the Memorial Center, both from the faculty and the student points of view,” said Mr. Red in an interview with the Thresher.

HE EXPLAINED further that he would prefer not to make any definite plans until he can be at Rice and become more familiar with the situation. “I feel it would be premature to make a statement at the present time,” said Red.

Mr. Red received a B.B.A. and B.A. in Spanish and Economics from the University of Texas in 1951. In 1952 he received an M.A. in Economics from the Institute of Latin American Studies of the University of Texas.

HE HAS BEEN assistant to the President of a veterinary pharmaceutical company in Mexico and was one of the partners who organized a soil testing company in Houston which specializes in studies of Mexican construction and agricultural sites.

Red has been associated with Rice previously as a Research Assistant in Chemical Engineering from October, 1962, until last August. His present position is Programing Officer at the Institute of International Education.
