

# Colleges To Hear The President On Rice's Policies

Plans for the speech which University President K. S. Pitzer was to give Sunday in the Chemistry Lecture Hall have been changed. Dr. Pitzer will appear in each of the colleges individually during the next few weeks to speak on "The University: Its Organization and Policies," the program committee chairmen of the five colleges announced.

The change in plans occurred during a meeting Wednesday between Dr. Pitzer and the program chairmen.

According to Hanszen Program Chairman Richard Best, "President Pitzer suggested that a more informative dialogue between himself and the students could be achieved through discussions in each of the colleges."

"This we felt was an excellent suggestion and we are now scheduling the individual addresses," continued Best.

Dr. Pitzer has already been scheduled to speak after dinner in Hanszen College on Friday and at Wiess at 6:45 pm on Monday.
