
Campanile To Be Distributed By Mid May

The 1960 Campanile has been scheduled for delivery on May 13, according to Frank Van Orden, editor.

Since the Campanile traditionally ran behind schedule even during the days of Fall delivery, it will no doubt be touch and go whether the books will be out on time this year.

Behind Schedule

With about 50% of the copy in to date with 20 days left until the March 15 deadline, Van Orden declared, "We are slightly behind schedule."

Spring delivery will limit the Campanile's coverage to the first three-fourths of the school year, excluding such events as Rondelet, Commencement, and the Senior Prom.

Not All Features

In spite of the spring delivery the 1960 Campanile will be comparable to annuals of the past, being approximately the same size and including most, but of course not all, of the same features in last year's book.
