

Equipment Stolen

Tuesday night a Rice student's car was broken into, and several expensive cameras and lens stolen.

The car, left in the Baker Kitchen parking lot at about 7:30, was locked. The student returned at about 8:50 to find that the car had been broken into. He commented that the police said they would "do what they could," but in any case his equipment was insured. The robbery occurred in spite of the Pinkerton security system.
