Student Council

Thresher Problem, Faculty Ratings Under Discussion

By LESLIE ARNOLD

ABOUT AN hour and a half of the Council’s time last Wednesday was taken up in discussing the Thresher problem. This story is covered in a special article elsewhere on the front page.

FACULTY RATING sheets were prepared for mailing to the professors. These should be in the hands of the students by sometime next week. The form is the same one that was used last year.

THE COUNCIL is in the process of revising the by-laws. All these revised by-laws will take effect when the new Senate is installed. Last week the Council took action on five of these. Article B-I, the Executive Committee, is entirely new. It provides for a four man committee composed of the President, Vice-President, Secretary, and Councilman-at-Large. “The purpose of this committee is to relieve the Senate of routine matters that can be handled without (Continued on Page 2)
affecting the general policies of the Student Association."

THIS COMMITTEE should be able to take care of little things like sending letters to Slippery Rock Teachers College of New Zealand telling them how we “solve” our parking problem, in short, handling routine matters of public relations.

THE NEW ARTICLE B-II, Social Committee, provides that all activities must be scheduled with the Social Committee. Social events will be limited to Friday, Saturday, Sunday nights, some few exceptions. Financial reports must be turned in for activities involving more than $200. There will only be twenty restricted dates, i.e. only 20 nights on which only one all-school events may be held.

ARTICLE B-III provides for a Student Center Committee composed of four students. This committee shall act as custodian of the Student Association properties, and is to act as a strictly advisory committee on matters concerning the Student Center.
