My dear Wife,

I have rec^d your letters but have been so much engaged that I ~~cannot~~ have had no time to write - I am now going out to try & get your Cotton & Carters hat & brade; If I get it, Edwin will bring them -

Capt Jones said something to me about your going into his house - don't think of it. I certainly thought that you had gone over to your own house before now. I hope you will go over at once; & don't think for a moment of going any where but to your own home - I shall come up as soon as I can & shall expect to find you in your own Cottage. I will bring some satables with me if I can

get them - everything is very high & no
money to buy with - try & content yourself
with but little. We all have a hard road
to travel - in other words no one is worth any
thing & if ~~we~~ we can make out to live we
will be lucky

your aff husband
Wm. Morley

Tell Bro to have
the lumber taken care
of piled up - & you will
be there where you can take
care of what I have
