EDITORIAL

BIL. AXONN DEMAINS.

The news that Mr. H. B. Axson will soon be our President has been a source of joy to the students of the Mule Institute. It was something that had been expected for some time, but it was not until it was announced that he would be here only for the 1932-1933 season, and after that he would be connected with an Eastern university. At that time the news was received with enthusiasm, but it was not until after the news was received that the students realized what it meant to have Mr. Axson at the Mule Institute. Notwithstanding his work at the institute, his willingness to serve on the program committees, and his interest in the students, it was not until after the news was received that the students realized what it meant to have Mr. Axson at the Mule Institute.

Mr. Axson's work at the institute has been a valuable addition to the program committees, and his interest in the students has been a valuable asset. He has been a valuable addition to the program committees, and his interest in the students has been a valuable asset.

In conclusion, we would like to say that we are looking forward to the coming season, and we are sure that Mr. Axson will be a valuable addition to the institute.
