GRADUATING CLASS HAS 35 MEMBERS

Hi B. A. Degrees and 4 B. S. Degrees are Awarded—Members of Class Have Spent 4 Years at Rice.

The first graduating class of the Rice Institute consists of thirty-five members, thirty-one of whom receive B. A. degrees, and four B. S. degrees in engineering. Of these only twenty-seven were in the first freshman class which matriculated at the Institute in 1911. The first class had in all seventy-seven members, the "citizens" as they referred to being the number which had matriculated on the opening day in September, 1911. Eighteen other students came in later on in the year, thus bringing the total up to seventy-seven. Twenty-seven out of seventy-seven is not a large percentage, but it is about as large as the average college can boast.

The thirty-six graduates come from five states, Texas having by far the greatest representation with thirty-one. The other States represented are South Carolina, Louisiana, Illinois and Texas. There are members from every county in Texas, Houston having the largest number.
