OWLS SMOTHER TEAM IN FIRST GAME

Wade Johnson, Co-captain of the Owls, scored the first touchdown of the game on a 15-yard run. The Owls led 14-0 at halftime and held on to win, 14-0.

The Owls played well defensively, allowing only one touchdown. Their strong defense led to their victory over the visiting team.

A second touchdown was scored late in the game by the Owls, ensuring their win.
OFF FOR TEXAS

The entire cadet corps is looking for- ward to the game in front of the Driskil! hotel. The University had twice as many men as the lady students on the square, and a transfer of the scene has most cer- tainly its place in the history of Rice and many of the mem- bers of the class of 1917.

The cheerers were in fine form last night, and they expect to continue their work through the remainder of the season. It is feared that the Thresher has not the right spirit to cheer, but if they do not, they will not be allowed to do so.

The Thresher hopes that it can do its part. Without the hearty support of the student body, Rice could not have made a very favorable showing last year, and a transfer of the scene has most certainly its place in the history of Rice in the future.

When we meet the cheering cadet section, when we meet the cadet section, we want to know what is the selling value of the first call for drill. We want to know what is the selling value of the first call for drill.

The important schools all over the country are taking more or less interest in public speaking, many of them have had the same idea. This is one of the ideas that Rice has. The inner Tiger devices enough attention to the people who are going to do the work. They are going to do the work. They are going to do the work.

The cadets in the cheer section, when they come to the time of the cheer, are going to do the work. They are going to do the work. They are going to do the work.
