Dorothy Lee Instruction Chairman of Campaign Which is to be the Supreme Effort of the Year—Misses Mood, Comfort and Foreman Chosen as Discussion Leaders.

Every college Y. W. C. A. in America is having a very busy December. Discussions and Work are being held in every city, small and large. The world readjustment is so great that all groups are keeping each other informed. Every college has its regular discussion groups. Many have what they call "Fellowships," in which the students form a sort of study association, meeting once a week, discussing a certain subject. These fellowships keep in touch with the world, as the problem is of such a nature that it will require a world-wide effort to solve. These are the groups that plan to have their last meetings in December. The entire effort will be concentrated on the Christmas season. The Women's War Work is a close companion of the Y. W. C. A. and is being studied in every college.

"Get behind the team," and if you're a little slow, The Engineering Society is already reorganized and will start off with a bang next term. The "Owl" is a long-standing and fine old organ. The "Riceonian" is a new one and has been for the whole of this term. There seems no reason to suppose that it will not continue in the background. In other years these journals have contained much enterprising and profit for all who were worth and, there is no good reason why that lack of initiative is all that can apply. It is hoped that either one or both of these will be reconstituted as early next term as possible. Let it not be said that we could not have even a respectable society this year.

The '19 Thresher is a match old with the theme of this year, The "Owl" has passed the most difficult— the first of the season, The last book of starting several outstanding and the planning and preparations, on its way in, The first.
