E. B. L. S. MAKING A STUDY OF THE LIVES OF GREAT WOMEN

At the meeting of the Elizabeth B. L. S., held Tuesday afternoon, the members engaged in discussion on the lives of women with Biblical characters serving as the principal theme.

The meeting was presided over by Miss Frances Foote, and the discussion was opened by Miss E. F. Simons, the chairman. Miss Simons introduced the subject with an interesting speech on the life of Sarah, the wife of Abraham. She pointed out how Sarah was able to overcome the difficulties in her marriage and how she was able to become the mother of Isaac, who was the father of the promise.

The discussion then went on to include the lives of other Biblical characters such as Rebecca, the wife of Isaac, and Rahab. Miss Foote and Miss McKeen contributed to the discussion by sharing their knowledge of these characters and how they exemplified the qualities of faith and perseverance.

The session ended with a short prayer, led by Miss Foote, and the club adjourned.

EMBRYO ENGINEERS

One of the most exciting events of the year for the Embryo Engineers was the annual gathering of engineers assemblled to discuss the problems of the future and to plan for the advancement of their chosen field.

The gathering took place in a large amphitheatre, and the audience was made up of engineers from various parts of the country. The keynote speaker of the event was Mr. J. T. Rather, a well-known engineer who has made significant contributions to the field.

Mr. Rather gave a speech on the importance of continuing education and the need to stay updated with the latest technologies and developments. He also emphasized the importance of networking and collaboration among engineers.

After the speech, there was a panel discussion where several other engineers shared their experiences and insights. The session ended with a lively Q&A session where the audience had the opportunity to ask questions and engage in further discussions.

The event was a huge success, and it was concluded with a grand banquet for all the engineers in attendance. The next year's gathering was already anticipated with great enthusiasm.

Library Continually Adding New Books to Meet the Need of the Various Departments

The library is a treasure trove of knowledge and information, and it continues to grow and evolve with the changing needs of the students and faculty. The library is well-equipped to meet the needs of the various departments, and it is constantly adding new books and resources to support their unique needs.

For example, the English and philosophy books are on the rise, indicating a growing interest in these subjects. The books on poverty, its causes and prevention, are very popular among the students. It is clear that the students are seeking a deeper understanding of the issues facing society.

The library is committed to providing a wide range of resources to support learning and research, and it is continually working towards meeting the needs of the various departments. The library is a vital part of the learning community, and it plays a crucial role in the intellectual and personal growth of the students.

WHO WOULD HAVE THOUGHT IT?!?

TOO MUCH SADDLE CAN CAUSE DISCOMFORT.

In selecting a saddle, remember it is not only important to select a good horse, but to select a saddle that is well fitted to the individual's requirements. The most important consideration is to see that the saddle is well fitted to the individual's back. A saddle that is too narrow or too wide will cause discomfort.

Rice's Service Record

IV. Professor William Cary Gray, M. A. (Harvard), M. B. (Edin.),

appointed to investigate conditions and the public interest in the poor law, in the year 1834. His report was published in 1836, and has ever since been regarded as a valuable contribution to the subject.

V. Professor John R. B. Brown, M. D. (Harvard),

appointed to work on the poor law, in the year 1836. His report was published in 1838, and has ever since been regarded as a valuable contribution to the subject.

VI. Professor William T. B. L. H. (Harvard),

appointed to investigate conditions and the public interest in the poor law, in the year 1840. His report was published in 1842, and has ever since been regarded as a valuable contribution to the subject.

VII. Professor Charles R. B. Gray, M. D. (Harvard),

appointed to work on the poor law, in the year 1842. His report was published in 1844, and has ever since been regarded as a valuable contribution to the subject.

VIII. Professor John A. B. Gray, M. D. (Harvard),

appointed to investigate conditions and the public interest in the poor law, in the year 1846. His report was published in 1848, and has ever since been regarded as a valuable contribution to the subject.

IX. Professor William T. B. L. H. Gray, M. D. (Harvard),

appointed to work on the poor law, in the year 1850. His report was published in 1852, and has ever since been regarded as a valuable contribution to the subject.

X. Professor Charles R. B. Gray, M. D. (Harvard),

appointed to investigate conditions and the public interest in the poor law, in the year 1854. His report was published in 1856, and has ever since been regarded as a valuable contribution to the subject.
PERSONALS

Mr. Hal Dinger, one of the instructors at Texas A&M University, died suddenly Tuesday evening. His subject was Mr. Dinger's favorite, and his death was lamented by the great sincerity and earnestness of the speakers. Mrs. Dinger's smooth, pleasant voice and her homelike brightness was heard in the crowded lecture room. The most interesting feature of all about those halls, sound which is entirely beyond the public.

Mrs. Conrail Griffith Evans and Miss Alice Dean are out of town visiting in Leavenworth and Eau Claire. 

Miss Katherine Mount, a Baylor student, is now in the University of Texas. 

Miss Alice Dean is out of town visiting in Leavenworth and Eau Claire.

Miss Katherine Mount, a Baylor student, is now in the University of Texas.

The weekly lecture of Miss Christy Draper, last Sunday evening. His subject was "Faith," and the listeners were impressed with the Misses Johnson and the Tietges.

Mr. Hat Draper, one of the instructors at Texas A&M University, is doing so well after his accident.

"The Latest Styles in Narrow Skirts" being the topic of the discussion in the Y. M. C. A. meeting last Saturday evening.

Miss Katherine Mount, a Baylor student, is now in the University of Texas.
