The following quotation concerning the Rice Institute from the San Antonio Express, June 30, 1919, is of particular importance to the student who wishes to secure a place in the College of Engineering at Rice: "The summer session of the university is at its first establishment. It is the first time that any school of engineering has been established in Texas. The students are very much interested and are learning a great deal. The professors are all capable and are doing excellent work. The students are very satisfied and are prepared to go back to their places of work with a new spirit of confidence."

You see, it was this way: Ford and Green were such a jolly good pair, and their spirit was remarkable. She was a beautiful Senior girl, with a little fish in her hair. She had just a break down and feel for consideration, and had a smile on his face.
