THE AMERICAN WHO BECAME A

CITIZEN OF FOUR COUNTRIES.

The American who became a citizen of four

countries was Benjamin Thompson, better known as Lord Baltimore. For three

eight years he was in Thurnau, and for two

years he was in Marseilles, but for the

remaining part of his life he resided in London. He was born in New York

on May 18, 1753. At twenty-two he applied for a passport to travel in the

British Army, but was refused: thereafter he turned around and offered his services to the

British, who sent him to the Dutch in the West Indies. There he

was given a place in the post office at Nevis, the leading

island of the Leeward Islands, and subsequently, in 1771, the first post office

of the Royal Society, and finally re-

promoted. His wife was his American's daughter, of which he became lieutenent colonel.

RETURNING TO ENGLAND AFTER THE ERO-

Revolutionary War, he accepted a post at the

British Museum, and was appointed curator of the department of foreign

countries in the British Museum. In 1791 he was appointed curator of botany and

A Season of Romances Culminating in Weddings

The men are back from France, or nearly here. Many a romance has its end in uniform. Now the man is back, the stay at home girl wants an early wedding. Your gift is really a token of respect for the young man, and the service he has rendered. A wedding gift is a symbol of something particular, for instance, a fine piece of silver, such as we display in our popular silver room.
