**SOPHOMORE DANCE PLANNED FOR 21ST**

There are still a good many who have not taken advantage of participating in student activities, and are therefore not successful students, but it is a fortunate fact that a number of us have the opportunity to participate in student activities and are making every effort to do so without performing the duties assigned. Most students appreciate the advantages of participating in student activities, and are therefore not successful students, but they do not have the opportunity to participate in student activities without performing the duties assigned. The results of the examination of the students indicate that at least two of the best students have the opportunity to participate in student activities without performing the duties assigned.

The fact that some student activities would do better if organized, and that the students themselves are interested in the results of the examination, is strong evidence that these activities are not important enough to be given at the University Club, which is the best that can be done.

The club will meet every Tuesday night in the Commons at 7:30 o'clock.

**SOPHOMORE DANCE PLANNED FOR 21ST**

The results of the try-out for the Sophomore Dance Club have been announced, and the members have been elected. The students of the Sophomore Class have been invited to apply for membership in the Sophomore Dance Club.

The Sophomore Dance Club will be organized at the University Club on Friday, November 13, at 8:00 o'clock. The program will include a variety of dances, including the Waltz, the Foxtrot, the Polka, and the Minuet.

The dance will be open to all members of the Sophomore Class, and will be a great opportunity for students to meet and socialize.

**GREAT JUBILEE FOR ALUMNI AND EXPERIENCED STUDENTS**

A great jubilee for alumni and experienced students will be held at Rice Institute this year. The jubilee will be a grand event, and will be open to all alumni and experienced students.

The jubilee will be held on Friday, November 13, at 8:00 o'clock, at the University Club. The program will include a variety of activities, including a buffet dinner, a dance, and a variety of speeches and presentations.

The Thresher, November 15, 1919

E. B. L.

The study of music and music appreciation was discussed at the meeting of E. B. L. this week. The life, technique and composition of Beethoven were the subjects. Kathleen Connor read a paper concerning the personal life of the great composer. Following that Mildred McPhail discussed the influence and far-reaching effects of Beethoven's compositions. Illustrations of this, Katherine Wash and Maurice Mills played some of the most significant Beethoven pieces on the piano.

At the close of the program a short business meeting was held. The constitution of the society was read to the new members.

Texas U. lends other colleges in enrollment.

The enrollment in the state University of Texas is at present 6,676, the largest enrollment in any University in the University history, and Texas U. leads the majority of other important institutions in the increase in registration.

While Harvard has barely regained her normal attendance since the war, Texas has gained 544. The increase in the University of California is 539, in Washington U. 642, in Notre Dame 2, in Michigan U. 2, in Maryland U. 3, and in the University of Illinois 5, The normal in all 21 universities this year is not comparable with that of last year, and perhaps the increase in the size of the senior class, but even then, work and work and work is the only road to the high standards and thoroughness of Rice Institution.

Paul Herr.

A PERMANENT POLICY.

This brings to mind the possibility of having a permanent policy with regard to the value of work on the student publications of the University. The work of the various organs is unimportant, sometimes they do not, literally the letter.

For instance, The Thresher, which has more or fewer writers but work on The Thresher has been better than the work of The Drum. That is not to say that work on The Drum has not been satisfactory. It is merely the fact that the work of the former is more exhaustive and well worth reading than that of the latter. And The Thresher has been more satisfactory than the work of The Drum because it has been more energetic. The Thresher gets more material and every one of its editors has the desire to do what is good for the University. The work of The Thresher has a broader and more comprehensive view of the University.

It is with great regret that The Thresher loses the services of its Editor-in-Chief, Paul Herr. His services to the University, and to the student body, a body that is not of the best, has been a high standard of The Thresher, both in the past and for the present, and The Thresher has been his own work in an integral fact, we can not help bemoaning the loss to all of us, which his resignation means that his resignation.

At the meeting Friday, October 31st, the Girls' Tennis Club started an interesting and instructive program on the techniques of modern teams. Miss Russell Herrick explained the main rules and principles in the development of service, and Miss Kitty Johns gave an illustrated lecture on the back-hand stroke. Miss Alice King described the arrangement of the most difficult Beethoven subjects. Kathleen Gemmer read a paper on the technique of some of Beethoven's compositions. Following that Mildred McPhail discussed the influence and far-reaching effects of Beethoven's compositions. Illustrations of this, Katherine Wash and Maurice Mills played some of the most significant Beethoven pieces on the piano.

A Permanent Day.

To every one practically all of us were in one branch or another of the national service. We were doing various things, but we had a single and definite objective; in what the nation, this country and our own school showed that the University of California is 38%, in Michigan U. is 35%, and in Washington U. is 34%. The University of Michigan is 38%, in Washington U. is 34%, and in Michigan U. is 34%.

The enrollment in the Main University of Texas is at present 6,676, the largest enrollment in any University in the University history, and Texas U. leads the majority of other important institutions in the increase in registration.

College News

Texas A. & M.
The Student Volunteer Society offered a Sunday afternoon program, and many new men were taken into the organization. It is expected that this will be the largest college group ever assembled.

An editorial in The Battalion says that several service clubs are organized at the College, such as an A.M. R.F., Gold Chevron Club, Silver Chevron Club, a Globe and Anchor Club, and a "Co." Club. Booster organizations have been formed in many other Southern colleges and in all of the leading North and South institutions.

Sixty-fiue students from the Student and Junior classes were at the Texas State Fair at Dallas to judge live stock exhibits.

Seville's Beers were rallied when the women of the University put on a performance in the auditorium last Saturday evening. The Annex Players featured everything that goes with a musical show or even a review.

A Tennis Club was organized Friday for the women and plans have been made for an extra good tennis court to be built near the Woman's Building.
