RICHE SPIRIT.

The spirit of the students has been better demonstrated during the past several weeks than at any other time in the history of the Institute. And this spirit is real. It is the result of a long development by the students themselves. Last year, what was called the "Tulane game," in which the students demonstrated their confidence in themselves and their enthusiasm for the Rice Institute, in a most remarkable manner, was a real achievement. Now the students are doing better than ever before.

The spirit of the team is also evident. It is clearly shown in the way the team has been playing during the past two weeks. They have been playing with a real purpose and determination, and it is evident that they are believing in themselves. The spirit of the student body is also evident in the way they have been supporting the team during the past two weeks. They have been cheering the team on, and it is evident that they are believing in themselves.

The presence of their rooting section has been a great help to the team. It has given them confidence and encouragement, and it has helped them to play their best. The presence of their rooting section has been a real asset to the team, and it has helped them to win.

In conclusion, the spirit of the students, the team, and the student body is evident. It is a real spirit, and it is a spirit that will help the team to win. The team is doing well, and it is evident that they are believing in themselves. The student body is also doing well, and it is evident that they are believing in themselves.

We are very proud of our team, and we are very proud of our student body. We are very happy that we have such a team, and we are very happy that we have such a student body.
