**MESSAGES TO REGULATE DANCES**

Governor Russell to Put Down Uprising

Jackson, Miss., Nov. 12—Governor Russell has returned from the publicity there where he attended a meeting of the board of trustees of a school, called to see if the student uprising could not be quieted, without injuring the institution.

The governor talked freely about the matter, saying that the uprising was caused by the students' desire to have more freedom in the school. He said the school was being run too strictly and that the students were not given enough opportunity to express their ideas. The governor was quoted as saying that he would do all he could to quiet the uprising without injuring the institution.

AN "R" FOR THE YELL LEADER.

A MAN does not get cut and get the best of himself (into football) or any other sport every day during the training season, every year for four years, solely if the hope of getting the best of himself. Neither do the men and women behind the student publications part in their share of time steadfastly through the year just for their "R"s. It has its private duty, of course, in the life itself, but when it is behind them it is.

Yet anything which takes a large student's time, however much he may like to do it, both for its own sake and the sake of the school, entails a certain sacrifice. The farther along one gets in school the more outside interests he naturally acquires and also the greater the amount of school work makes upon him. His time, especially if it is partly paying his own expenses, and the most valuable thing he has, is the most valuable thing that counts for any sacrifice or at least in the case of the athlete, in the temporary glory and honors which always seems likely that it will first be necessary to should be carefully guarded and that it should be.

Two are "R"s also, in the class of the "R" and quill association. The Owls nobly fought the Farm- team the sort of support that counts?

It may seem to the lay student that the yell-leader has nothing to do but take a megaphone and announce the yell and run ahead in the dance. If that is what he is asked to do, he says Shorty. He has felt the necessity of re-signing. A yell-leader knows how much time is required for leadership. He must have the quality of leadership. He must have the quality of leadership. He must have the quality of leadership. He must have the quality of leadership. He must have the quality of leadership. He must have the quality of leadership. He must have the quality of leadership. He must have the quality of leadership.

An interesting evening is promised to everybody. Have you had your picture taken for the Campanile? If you have not, go to the Van Dyke Studio in the Kress Building and have it done at once.
