Rice Owls ended their football p.eu on Thanksgiving Day with a hard fought struggle with the Arkansas University. The game was the low key on Rice team this season although both teams were regarded highly at the season's opening. Little points were scored, and the Owls had a chance to win, but they were not able to get the small individual's and collective effort that they needed. In the second half of the game they were faced with a heavy attack, and for that reason they were not able to score any points. In the first half of the game they were able to score two points, and that made the total score 2-0. In the second half of the game they were not able to score any points, and that made the total score 2-0.

A PLEA AGAINST INTRA-MURAL FOOTBALL.

The injuries sustained by the members of the Sophomore and Freshman football teams are so numerous and so serious, and such an increased repetition of harm done players in former years of this kind, that the student body is Ichabod of intramural football entirely.

Class contests are always extremely warm for the outside seems to be a game of force, endeavoring life and limb to a negro edition of the sports of other sports, and hence in class football such serious accidents often occur. Last year one of the varsity football players received a broken collarbone. A freshman was carried to the hospital in a crazed condition. Several of the players had seriously the game. And why is it rougher than intercollege ball of these clubs after Christmas? The academic study takes place before marriage. Congratulations, Texas, for your best, most successful southwestern championship to win in track. And don't forget the Southern Methodist University at Dallas.

The third of a series of lectures given under the auspices of the Y. W. C. A. and the public is invited to attend them. The first was an interesting talk on social hygiene and the second on literature. The third will be on "Science and Progress." As usual, the weekly dance will be held at the Community House Wednesday night, November 29. An interesting feature will be a dance for the Y. W. C. A. and men who are about to be married. loafers.

THE "E" QUESTION.

The football season is over, and the better question of which players are best entitled to the "E" is up for discussion. With such numbers of men who have done good service, yet who can not, in any way, do as much as you, is it not indisputably glad that we are not Mr. Arbuckle. But if we did have any "E" in our disposal, we know where one would be assigned to.

The organization of a business club is in a manner to a real need among Rice students. It is not a "select men's club" and will not participate as a body in the elaborate and expensive functions of the Ingnitiile. It will be devoted principally to informal talks by men who have reached the top in business, and the members of the club need not fear that it will take much time from their studies. Already a number of prominent business men have expressed a willingness and desire to assist the organization in every way possible. This, we might add, is just another case of realizing profits from that "sale of Rice to Houston."
The Young Men
Of This Community.

more than ordinarily welcome at the "UNION." To work with and for them in a constructive way—to link our own ambitions, experience, and strength with their ability and freshness of vision, is a program which means much to this city and section. Young Men are cordially invited to bring their business problems to this bank for frank and confidential conferences.
