TULANE HAS HEAVY FOOTBALL SCHEDULE

Rice, Auburn, Illinois and Michigan on List.

Tulane has taken its stand on the gridiron with the biggest schedule in the South. The conference engagements will be
continued by the rolling Green Wave. Tulane will meet such names as the mighty little eleven not only in the South, but the entire country. When Athletic Director "Germany" Dolenski announced that Tulane had closed a deal with Alabama, fans knew that a football vacation in New Orleans in 1921, the Crescent revocated with only after a week of the proposition, crowed the Green Wave. dolenski announced that Tulane had closed a deal with Alabama, fans knew that a football vacation in New Orleans in 1921, the Crescent revocated with only after a week of the proposition, crowed the Green Wave.

No Smoking on Campus at Oklahoma A. and M. College.

The administration of the Agricultural and Mechanical College has taken definite steps to establishing a no smoking on campus. All students are warned of the dire results of smoking on tho campus.

Conference is planned for next week to talk out the details of the regulations. Professor E. H. Forboding will be putting it before the students of A. and M. College. It is expected that any student caught smoking on the campus will be a member of a number of compulsory committees, would be reported to the dean. A fine of $5 will be assessed on any student caught within the gates, don't smoke, or even light a cigarette. It is expected that this conference will result in a definite finish and realistic interpretation of the growth of smoking on the campus.

Green Wave Plays Make Big Hit Last Night.

Sherwood Eddy ofInternational fame will be at the door of Rice A. M. H. There will be a meeting of all students at 8 P.M. in the laidoff classroom and a number of men only at 9:30 in the commons. Both meetings will be of the presence of Sherwood Eddy. Eddy is well known and will exert himself to show them the best possible work. Those who Miss Eddy are deeply disappointed over his proposed visit.

Students May Be Allowed to Solicit Advertising for Co-op.

It was announced by Treasurer E. H. Forboding that an attempt will be made to see that students will be allowed to solicit advertising for the Co-op. They are planning to get together all the students and take the necessary steps. The students are all anticipated to follow the example set by the Y. W. C. A. that they are planning to do. The Lost Silk Hat." Mr. Ttdden ably defended the excellent reputation as the best of the Y. M. C. A. for the past two years. The Y. W. C. A. has made a wonderful impression on the students, and they have all been satisfied with the work.

The meeting of the Council was unusual. The next meeting will be held on Monday, Jan. 17. The following is the schedule of lectures in February.

February 9—The Life and Work of a Civil Engineer. Mr. Ryan.

February 12—The Life and Work of a Leveling Engineer. Mr. C. W. F. H. O. Nichols.

February 13—The Life and Work of a Chemical Engineer. Mr. H. W. C. W. O. Nichols.

February 20—The Life and Work of a Mechanical Engineer. Mr. H. W. C. W. O. Nichols.

February 26—The Life and Work of an Electrical Engineer. Mr. H. W. C. W. O. Nichols.

The purpose of these services is to give the students from the beginning a better idea of the working and living conditions, facilities, and opportunities in those fields of engineering work, and to enable them to choose the work most suited to their inclinations and desires.

MEMBERSHIP INVITED.

Next week the date for the Junior Prom will be decided at the meeting held in the Physics Amphitheater. All students are nominated for the class festivals and are invited to attend. The date is to be decided at the meeting held in the Physics Amphitheater. All students are nominated for the class festivals and are invited to attend.

March 14—The Life and Work of a Mechanical Engineer. Mr. H. W. C. W. O. Nichols.

March 20—The Life and Work of a Civil Engineer. Mr. Ryan.

March 27—The Life and Work of a Chemical Engineer. Mr. C. W. F. H. O. Nichols.

The purpose of these services is to give the students from the beginning a better idea of the working and living conditions, facilities, and opportunities in those fields of engineering work, and to enable them to choose the work most suited to their inclinations and desires.

The lineup was as follows:

P. C. M. and E. C. B. M. A.—11 to 5; Rice 15, 6.

Rice, Simmons, 19 to 15.

Total: Rice 30, Simmons 17.

Referee: Kinney.

Substitutions: Rice—Kennedy for Simmons—Vickery for Radnor.
FEAR OF LAXITY IN OUR HONOR SYSTEM

A familiar maxim is that "an ounce of prevention is worth a pound of cure." This is especially true in the context of maintaining discipline and integrity in our Honor System. We are all aware of the distinction between "R" and "N" sweaters, which are awarded to students based on their academic and conduct performance. These sweaters are a symbol of honor and achievement, and they are carefully administered to ensure that only those who deserve them receive them.

We believe that it is important to reinforce the values of the Honor System by recognizing and rewarding those who adhere to its principles. The "R" sweater, for instance, is a symbol of the highest level of honor and recognition, and it is awarded to students who demonstrate exceptional scholarship and conduct.

Some students have been employed for choosing, following the action of the Honor Council. Yet the Council and the faculty feel that the best group of examinations shows the greatest laxity in the history of the school. The Honor Council states that if conditions do not improve, the complete deliberations of the day, and the names of all those expelled will be published. Their deliberations, however, are not a secret. The honor, and the faculty; and the officials of any college at which they might apply for employment, will not mean a public disgrace, which could hardly be lived down.

We do not believe that, when the student body is a whole welcomes to the newcomer of the situation, such drastic action will be necessary. Among the great body of Rice men who are themselves honorable there has been only a very few whose character was so much condemned of those who are not, Look at the matter squarely. The man who deliberately places the man who violates his own honor.
**AN APPEAL FOR MORE & BETTER TEACHERS**

**Industrial and Technical Workers Are in Demand.**

Largely because of the events of the war the technical conditions have been changed in many ways. There is a need for education of the highest kind and most comprehensive type and the time has come for the production of material wealth to meet the demands of the war. Fortunately and as a new and democratic age the world looks to America as to no other nation since the fall of the Roman Empire, for the development of manhood and womanhood, and for culture such as is truly democratic that must be made possible for all. The time is ripe for higher educational requirements. To meet the demands of the nation will require large increases in the number of schools giving a new kind of education from the fundamentals of the university to the vocational and professional and technical school. The time of leisure and the claim for more intensive study of the many problems which have been waiting since the war for the solution is at hand. The time of leisure and the claim for more intensive study of the many problems which have been waiting since the war for the solution is at hand.
THE HEART OF BUSINESS.

The Heart of your Business is Money. It is Money that sends the red blood through all the arteries of your affluence. If its Heart is weak, your Business is weak. This Bank is your Institution for Strengthening your Business Heart, keeping the Blood pure and clean, guarding you from dangerous infection. Use It.
