RICE-BAYLOR TRACK MEET

RICE OVERWHELMS BAYLOR IN TRACK MEET, 77 TO 40

PHYSICAL TRAINING EMBLEMS AWARDED

Fourteen Boys in Honor Division, Regular Gym Classes End.

The best physical training classes ended last Wednesday, March 30, with Rice having swept the honours for the year. The boys of the Freshman class scored the highest number of points, while the other classes were well behind. The class of '21 was second with only 80 points, and the sophomore class third with 60 points.

ELITE INSTITUTE WINS MEET

The Elite Institute put up a good show at the track meet, but Rice defeated them with a score of 77 to 40. The meet was held on the track of the Elite Institute, and was attended by a large crowd of spectators.

The track meet was held on the same day as the annual meeting of the Rice Athletic Association. The meeting was attended by a large number of students, and the officers of the association were elected for the coming year.

The meeting was opened by a prayer, and the minutes of the last meeting were read. The treasurer then reported the financial affairs of the association, and the secretary gave a report of the athletic activities of the past year.

The new officers were then elected, and the meeting was brought to a close by the reading of the minutes.
A PUBLICITY MAN AT RICE.

In the beginning it was proposed to make a publicity man at Rice which was to be the cream of all modern ideas on university building. The idea was a wonderful one and as per and half it was not tried. But The Thresher sees one need which it believes should be attended to that of appointing a publicity man at Rice.

On repeated occasions there have been conflicting reports of Rice news in the two daily papers and those reports are still different from one on the same story. How it was that the Chronicle published a baseball story in which the Red team was boosted as a whole, and prospects for a championship, was in the wire on the very day. That same day the Post announced that Rice had won a baseball town and that it would likely not pitch because there was no one to catch it. There was the best investigation showed that both papers were wrong. Rice did not have a great baseball team, as reported, but, on the other hand, there was no one to catch the ball who also, as "the wonder of" the Rice Chronicle put it, since then has improved wonderfully. The school has been doing some good work in athletics, and probably 50% of the students who undoubtedly had the interest at Rice have been interested in the 50% that is a publicity man or committee. To say you can do things which aren't so interesting is only to admit to your lack of interest. Had a publicity man read the stories and corrected the facts there might have been news of a contrast with the conflict would not have occurred. This is the real need that the Thresher sees. Another fault which has been noticed is that there are papers at Rice which are like papers before The Thresher prints it. If the paper is wrong, then it is news. All announcements to be made by the university paper must be news, excepting of course that which will not be news, but in those cases the publicity will be doubled. To be true of a school paper has a soft job is a lie.

RICE FORUM HAS STORMY SESSION
Conservative and Radical El-
ments Clash in Heated
Arguments

A branch in the Rice Forum which
for the last few weeks has been
growing under some adverse criti-
cism at the last meeting when Mr. Wa-
ter, leader of the radical political
campaign, launched a tirade against
the conservative element stressing
the fact that there are only a few of
their number to be found at the up-
coming elections. This statement
caused a storm of protest from the
conservative group who claimed
that their numbers were increasing
steadily. The meeting was
interrupted by a heated argument
between Mr. Water and Mr. Cooper,
one of the leaders of the conserva-
tive group, who accused Mr. Water
of being personally biased.

You were just a big boy quite tough,
and when you said, "why this thing?"

ALL THAT DRIVERS NOT SOLD.

The young man at the window

In a small town, there was a boy who drove a car.

The boy was small, but his dream was big.

He worked long hours and saved every penny he could.

One day, he heard about a race coming to town.

The boy knew it was his chance to shine.

He entered the race, and to his surprise, he won.

But the real victory was in the boy's determination and hard work.

The boy left the race track a winner, but he never stopped dreaming.

He continued to work hard, and his reputation as a driver grew.

Years later, he became one of the most successful drivers in the world.

And he never forgot the small town where it all began.

The young man at the window made history.

But it didn't happen without a lot of sweat and determination.

The boy who drove that car became a legend.

And the boy who drove that car is still driving today, inspiring others to follow their dreams.

The young man at the window was a champion.

He never let his size stop him from chasing his dreams.

And that's the story of the young man at the window.

His name was never really known, but his story will live on forever.
The Writing Club, interested in having the members write on local subjects presenting different meetings. Everybody is cordially invited to be present.
