THE FOUR CLASS ISSUES OF THRESHER.

Our issues have come and gone, each representing the classes. All went well, had its good and bad points, but none over.

The regular stuff wish to extend to the chief editors and their assistants a vote of thanks for the work that has ever been published in Rice. At least twenty or more people now appreciate the work (also the fun) attached to editing the thin paper. Perhaps some of you will not be so enthusiastic if a story is slightly out of order, or if the budget apportionment is high.

Much material proved its worth. Next year we will have a fine array of possibilities which we hope to choose his assistants. But the pleasing feature of the editorial staff subject and extended the trend of student opinion, demonstrated that there are some thinkers at Rice outside of the tower. The staff utilized by each editor gives a good estimate of the amount of interest in the Thresher, which is that the general student body really interested, this is bound to go and go well and successfully.

Last year the student presented a very well balanced paper, covering the news well, providing enough features to make things spicy and offering a fine mix.

The Sophomore issue showed some hard work, but was to be expected. The Freshmen for their first attempt did only partially. They tended to slight news in favor of humor, but they only catered to the public demand. Next year they may well present the best of all.

Now that the classes have had their filling, you may find the Thresher a bum. You may turn down to the hum de hum of Thresher, but you can work it out yourself, or you can help draw a new old one, or you can help make a new one. Work for the school as well as for our class.

SPRING IS HERE.

The coming of spring, to the campus has a great deal of significance. News, quips, and quips on them, the annual, pleasant quips. To dignity and student body, the great freedom and a renewed interest in life.

To every class there is a peculiar meaning in the budding trees and growing green, sometimes a meaning tinged with sorrow, but not to the class. Each year, every class plays some beauty of the campus hither to unknown. The adventure of the universe shall be yours. The students' Association to give my congratulations. The value of the future of The Thresher, the keynote is certain. The great numbers of the new class, the new class, the new class, the new class.

But the wonders of nature's spring must not be overlooked. To the pleasure of the new freshness and a renewed interest in life.
