Rice track men are expected to have a close contest with the men from A. & M. tomorrow. A. & M. is well trained, and defeated S. M. U. and M. U. by large scores. Although Rice has done the same thing comparatively, some are not quite certain of the outcome of tomorrow’s meet. The time of Alexander, McGee, and Dugan is almost too well known to cause any argument. The conference meet, April 21, will probably be in the hands of A. & M. if Rice is not ready for the contest. Four thousand copies of the book have been printed, and under the direction of Associate McGee, will be distributed among the members.

In the class election held in the Rice Union building, S. M. Dugan came out ahead, defeating his opponent, R. J. Clark, by an estimated score of the presidency of the association.

The book proper is printed in two sections, in pictures in forty-four pages where the best of the best can and will meet. It will be sold for $2.00, and the proceeds will be divided among the members.

For the injuries sustained by Alexander, there will be no more track meets this year. Rosenberg took second place in the mile. Alexander's southpaw slants.

BTWAXAHACME

Both teams are well balanced and will put up a good fight. Rice has a team of very capable athletes, and A. & M. will not stand so high in the conference meet.

Huston Heights, winner of the district meet in A. & M. and Newcomb. The 100-yard dash will be held at Rice track field, on April 21, and several places will be given away for the contest. Holmes has also cooperated with the college to make the event a success.

The Owls won 200 votes in Millsboro, The campus has usually been divided between B. D. and D. D. and D. D. was victorious by 12 votes. Alexander by 27 votes, and M. D. was out of the race at an early stage.

The meeting is intended to stimulate interest in writing among the students. The Writing Club has produced a considerable amount of work in this field, and comments are made by Dr. John W. Dobbs, chairman of the club. There will be a general discussion of his paper, "The Essentials of a College Culture," and the meeting will be held near the end of the evening. The meeting will be conducted in an informal manner, and papers will be read.

ELECTED-HANDLE WITH CARE!

Every employer is looking for the man who can do the job. The first thing, of course, is to hire any number of people marvelously skilled in routine or in detail—human machines that understand that a fact is of no particular importance merely as a fact, but that it derives its worthiness from the tasks entrusted to themselves worthy of the tasks. The ability to view things broadly, to have understanding as distinguished from mere technical skill, is needed, and has had college training.

Are you living up to these expectations? Are you as real live Rice students striving to cultivate the ability to view things broadly, to understand what goes on even if you do not know it? Obviously, if you do not understand the situation, you are not living up to the expectations.

To each and every one of you is given the opportunity to make yourself a citizen of the college, a member of the college, a part of the college. It is your responsibility to your fellow students, to the college, and to yourself to fully understand what goes on.

The officers then, incoming for the season, 1921-22, will have the distinction of serving Rice students for the banner year. If they attend the election of officers of the Student Association is in capable a manner as the officers of this year have, we may rest assured of having a highly efficient Student Association, for the next academic session. The Speaker feels confident that they will prove themselves worthy of the task of leading you, the members of the Student Association, and the faculty and the truth.

THE SUPREME POWER IN CASE OF NEW ELECTIONS.

Though the trifling tempest which was raised with reference to holding another election over and over again has subsided, the discussion has brought to light some vague points in the legislative depart- ment of the association. The association works no provision for primaries, except for the express purpose of the calling of a mass meeting of the student body. At this point, the candidates have been passed. Of course the election board has no right to call another election, or to redefine as "for managing the campaign, holding the election, and counting the votes." The council has full authority on these matters. The only legal action is one which is taken by the Students' Council for the calling of a meeting. If another election should be wanted this is the only method by which it may be arranged, for 25 members to petition the council to call a mass meeting. The subject can be placed before the council, as the action of the body and action taken.

It would be farcical to let the election board call another ballot because a certain percentage of the students say that they might like to see another called. An election should not be made and work-hard could not possibly be the result should the council establish this precedent of letting the election board manage the matter in this way. The only way, the just and democratic way, to handle such a matter (if it be urged), is the calling of a mass meeting to discuss the wants of the students. The students themselves are the supreme power and should settle such questions.

THE FORMATION OF "R AND QQUILL" ASSN.

The formation of the "R and Quill" Association has been mentioned some time ago by The Thresher, has so generally met with the approval of the student body that it appears as though the question should be considered by the student body without question. The "R and Quill" was to have taken place. A banquet has been in the planning for some time, and that of the "R and Quill" now in the city colleges, or any others who come from distant points to assist in the perfection of the "R and Quill" Association. Several alumni, prominent in journalism fields, urge the immediate formation of the association.

The matter certainly should receive the attention of the editors of the winning organizations, and should be discussed among them. This is already the case, so that action is, if the "R and Quill" Association is to be organized this year. L. Schleifer.
