The proposal of the Salesmanship Club to the student body of Rice is, after close study, quite astounding—marvelous. In view of the fact that they have already done so very much for Rice, their latest proposal comes as more of a surprise to the general student body than it does to those students in close contact with that body as they have said. It sounds like a myopic fancy, but it is deeply rooted upon solid realities.

"Employment will be guaranteed every worthy student willing to work toward the principles which led to the world war, and who has already some knowledge of these principles, by the Rice Salesmanship Club. The purpose of the club is to bring together the student body and all students who are interested in the student body, and to form a representative of the Thresher. Of course, they continued, that an administrative, although coordinate, organization of the Bobcats student body; it must be an all-inclusive college organization. Some students are taking part in some form of student activities, as literary, athletic, social, or political, for their experience needs employment will have assurance him before he comes to Rice, and the hours will be so arranged that it will not interfere to any marked degree in his practice and training if the fields.

There are a number of positions open to students about the campus, but these are always filled, with long waiting lists. The list of the applicants before the committee for the next year is so great that they have to reject many of the best and most promising candidates. This shows that the general spirit of financial depression now exists, not only among the present senior class, but also among those who were before to meet their obligations, but are now finding the effects of the economic conditions. In general, the great number of prospective students applying for these positions have indicated that they are so busy that they can have employment before they can enter college. This guarantee on the part of the Salesmanship Club is a balm to the ailments which were threatened due to this abnormally higher condition.

And yet more do these generous, vital, live wires of Houston do. Two men will be lost by production.

REMINISCENCES ON THE LAST THRESHER OF THE YEAR

It was somewhat of a heart-throb that the editorial staff of The Thresher lays down its quill, not to be picked up this year. The same staff which began the work of "spreading the gospel of truth" over a year ago, now comes to the completion. Whether or not it has been done satisfactorily or not is another question; but the end result is the same—no one will deny.

The allotment of certain amounts for the fine done work, including the advance, is not a question, the work has been carried out with the greatest of skill and care, and has been of great benefit to the students and the public at large. We are happy to have served its Alma Mater in such an exceptional time.

MR. GODWIN'S BENEFICIARY

The Godwin Foundation and Lectureship in the School of Engineering are to be given up to the benefit of the students. The benefits which have been received from the Godwin Lectureship have been most appreciable, and it is hoped that the benefits which will be received from the Godwin Foundation will be even more appreciable.

The Godwin Foundation has been established as a result of the generosity of Mr. Godwin, a man of great means, who has generously given his wealth to the school for the benefit of the students. The foundation will be used to provide scholarships and fellowships to deserving students, and will be a great help to them in their studies.

In conclusion, we would like to express our appreciation to all those who have contributed to the success of The Thresher, and who have helped to make it a success. We are confident that the future will bring even greater success to this wonderful institution.
Ohio State University is to have the largest stadium yet erected in the United States. It will cost $2,000,000 and will be used for football and track. The land on the eastern bank of the Ohio River near the city of Cincinnati, the stadium, which will be named for the state of Ohio, will be completed in 1922 and will have more seating for spectators than any other stadium in the country.

The stadium will be 500 feet long and 250 feet wide, with a capacity of 100,000 persons. The playing field will be 150 feet wide and 300 feet long, with a seating capacity of 75,000 for the main stand and 25,000 for the press box. The stadium will be equipped with a new and improved scoreboard, and will have a seating capacity of 100,000 for the main stand and 30,000 for the press box. The stadium will be equipped with a new and improved scoreboard, and will have a seating capacity of 100,000 for the main stand and 30,000 for the press box.
