OKLAHOMA TAKES LAST GAME FROM THE RICE OWLS

SOONERS WIN BY SCORE OF 27-14

Ten Rice Gridders Finish Their Football Career in This Game

The boisterous, spirited Oklahoma fans that crowded the stands of the University of Oklahoma football stadium to witness the annual battle between the Sooners and the Rice Owls were not in the least disappointed with the game. The outcome of the contest was as expected, the Sooners defeating Rice 27-14, but the game furnished plenty of action and thrills that made it one of the best contests of the year.

The game opened with Oklahoma, led by their star quarterback, completing a long pass for a touchdown that put the Sooners ahead. Rice answered with a field goal, but Oklahoma came back with a second touchdown and a successful conversion, leading 13-3 at the half.

In the second half, Oklahoma continued to dominate, scoring two more touchdowns and two more field goals, while Rice could only manage a single field goal. The final score was Oklahoma 27, Rice 14.

The game was marked by excellent play from both teams, with Oklahoma showing their usual strength and Rice putting up a good fight. The Sooners had the advantage in both offense and defense, but Rice showed that they were not to be taken lightly.

The Oklahoma defense was excellent, especially in the backfield, and the Sooners were able to stop Rice from making many yards on the ground. Oklahoma's quarterback, who was in fine form, led the Sooners to several touchdowns, including one in the first half that put the Sooners ahead.

Rice, on the other hand, put up a good fight, and their quarterback was also outstanding. Rice managed to score two touchdowns and two field goals, but they were unable to stop Oklahoma from scoring more points.

The Sooners defense was so strong that they were able to prevent Rice from scoring many points, and the game ended with Oklahoma winning comfortably.

On the whole, it was a game that lived up to the expectations of the fans, and the Sooners were able to claim another victory over Rice. Oklahoma fans were delighted with the outcome, and the game was considered a fine one by both players and spectators.
FOOTBALL SEASON

Now that football season is once more

opened, you have a chance to play in that

game that stands a step above all others.

It is one game that everyone knows that it is

expected great things of the players to

come out of these football games. The

individual and of society. The

decision in this matter than the

were unable to outstand the list.

How Were X-Rays Discovered?

SIR James Mackenzie Davidson visited Professor Roentgen to had

not how he discovered the X-rays

Roentgen had covered a vacuum tube, called a Hitcock or Crookes tube, with black paper as so as to cut off all its light. About four yards away was a piece of cardboard coated with a fluorescent compound. He turned on the current in the tube. The cardboard glowed brightly.

Sir James asked him: "What did you think?"

"I didn't think, I investigated," said Roentgen. He wanted to know what made the cardboard glow. Only planned experiments could give the answer. We all know the practical result. Thousands of lives are saved every year which would otherwise have been lost.

Later on, one of the scientists in the Research Laboratory of the General Electric Company became interested in a certain phenomenon sometimes occurring in indirect X-rays. Others had observed it, but he, like Roentgen, investigated. The result was the discovery of a new governing electrical condition in high vacuum.

Another scientist in the same laboratory saw that on the basis of those new laws he could build a new tube for producing X-rays more effic-

His cable was the Crookes X-ray tube which marked the greatest advance in the X-ray art since the original discovery by Roentgen.

Thus, scientific investigation of a strange phenomenon led to the discovery of a new governing condition in electrical phenomena that led to the greatest improvement in that art.

It is for such reasons that the Research Laboratories of the General Electric Company are continually investigating, continually exploring the unknown, it is now knowledge that is sought. But practical results follow in an endless stream, and in many unexpected ways.

ARCHI-ARTS TO GIVE SPANISH COSTUMED DANCE

The very night pupils with the choiring of guitars, within the hallrooms is a scene of exotic glory. True for exquisite Carmen storia with a dozen draggers, then a página over has droppers available and choirsgetti with a holy grand. Costs cícal and dancing feet suitable to the music of Madrid.

It is "La Mancha Scenario" to be given by the Archi-Arts of Rice in the Asbury Room February 3. A Sound ball, with dances in the costume of Old Spain. Students and graduates of the architectural and art departments compose the Archi-Arts. Furthermore the Archi-Arts ball will be an annual affair.

Great preparations are already under way for this year's ball, and the affair promises to be a red-letter event on the Rice social calendar. Nothing like it has been done before at Rice or in Houston, it is assured.

The billboard in the Asbury Room will be converted into the half of a Spanish Gondola, for the occasion. Taxe, effort and money will not be spared in producing a magnificent setting for the masque. Dance and faculty alike are working at full speed and will continue to do so for the 48 days remaining before the third of February, when the advanced students in the architectural department have been convoked by Mr. Winkel, head of the department, having in mind the decoration of the hallrooms for the masque. From the solutions presented the finest those will be selected and used in the decorating work.

The account of the site of the ballroom, the subscription list will be limited to about 100, not including the Archi-Arts themselves. The subscription for one 100 who apply will be the lucky one, having the happy task of choosing positions. The subscription will be $100 each. People derived from the subscription list will be spfed on making the masque scene complete, and it is expected that the expense will be made to make for next year's affair at Rice. The Students' Council will be invited to audit the finances of the masque.

There will be no need of going to much effort in contacting for this event, it is said by those who are backing the project, one of the best things about an affair of this kind, they declare, is to be able to choose one may get from thoughtful thoughtSteel preparations.

Reservations for tickets may be made by turning in one's name to any of the Archi-Arts themselves. The first 100 who apply will be the lucky ones, declaring the names of the applicants. John Clark, Ten, Harry Matthews, Miss Wine, A. H. Martin, Jr., Virginia Atwill, the Brown, Ernest Schwartz, and a few others.

STUDES BEWARE: THE EXAMS ARE DRAWING NEAR

The atmosphere of the cloisters endures a decided change with the beginning of the year and the demanding schedules of the past week. The first term,勉强ly, is completed. Exam week is scheduled for Thursday, when 305 times took a text-besidden examination. Progress reports will be in hand by Tuesday, December 13, and 600 times. Arrows from Cotton Hotel. The exams are to be given somewhat earlier than usual this year, so the students are placed in the exam in the Asbury Room February 3. A Sound ball, with dances in the costume of Old Spain. Students and faculty alike are working at full speed and will continue to do so for the 48 days remaining before the third of February, when the advanced students in the architectural department have been convoked by Mr. Winkel, head of the department, having in mind the decoration of the hallrooms for the masque.
