The Junior Prom PROVES TO BE A GREAT SUCCESS

Another Junior prom has passed into history. However, the class of '22, in its activities during the year and the activities of the seniors in the later portion of the year, has made a record that will be hard to conquer. The Junior prom was held March 26 with a program that was planned and executed with excellent taste. The Junior orchestra and the senior orchestra, under the direction of Dean Mortimer E. Cooley, gave several numbers. The Junior singing group, under the leadership of Mrs. Waller, gave a presentation of the song, "Where the Wind Blows," and Miss Kathryn Waugh rendered, after which a costume dance was given. Three hundred and twenty-five people were present at the prom.

The refreshments included sandwiches (at a cost of one piece of bread and one quarter cent), punch (sold at one cent per glass), and cake. The orange juice was the most popular item, and the punch was sold for one cent each. The bar omelet, sold for five cents each, was also very popular. The dress was elegant, and the decorations were tasteful. The Junior orchestra and the senior orchestra gave several numbers, and the Junior singing group presented a recitation of the song, "Where the Wind Blows," rendered by Miss Kathryn Waugh.

Should a Woman Smoke?  

There has been a great deal of discussion on this subject, and there are those who feel that a woman should not smoke, because it is said that she does not have the lungs of a man, and that she is not as strong as a man. However, when one looks at the evidence, it is clear that there are many women who smoke and are not harmed in the least.

It is true that smoking is injurious to the health, but that is not the only reason why a woman should not smoke. The real reason is that smoking is a habit that is hard to break, and that it is not good for her standing and reputation. A woman who smokes is not as good a wife as a man who does not smoke, and she is not as good a mother as a man who does not smoke.

Many women who smoke do so because they feel that they need it to relax, or to take care of their nerves. In many cases, smoking is a substitute for alcohol, and it is better to give up smoking than to drink.

Class Issues  

The class issues of the Thresher will be on the first week of the second term. The Senior issue will be first, the Junior the second, and the Sophomore the third. Each class will do well to begin to think about the matter and to make arrangements for their issue. The elections for the class will be the first week of the next term.

The work of the class issues is to be done for those classes, not to give the regular staff any trouble. In fact, it is hoped that the class issues will help the regular staff.

Every member of the regular staff will be glad to help each class staff. The class issues of the Thresher will be on the first, the Junior the second, and the Sophomore the third. The work of the class issues is to be done for the class, not to give the regular staff any trouble. In fact, it is hoped that the class issues will help the regular staff.

Athletic Director: “And what are you doing tonight?”  

Girl: “I’m going out with a couple of guys.”
