ENGINEERING SHOW GREAT SUCCESS

THOUSANDS THRONG TO RICE TO SEE THE MANY FINE EXHIBITS

SCIENTIFIC FEATURES EMPLOYED

Novel Experiments and Tricks Performed to Attract the Visitor's Attention.

The main feature of the Engineering Show is the scientific equipment and experiments employed to attract the visitor's attention. Among the exhibits are demonstrations of the principles of electricity, including the operation of a searchlight from Fort Crockett, furthest beam of the coast defense system. The display includes a searchlight that projects beams of green and red color. At one side of the show, a variety of experiments are being performed, such as the Tension tests of steel on a 100,000-pound machine, and the demonstration of the atomic constitution, which is leading experimental physicists to new discoveries.

A presentation of the varied exhibits and science demonstrations held at Rice is the highlight of the show. The display covers a broad range of scientific topics, including the physics of light, sound, and heat. Many of the exhibits are designed to be interactive, allowing visitors to experience the principles of science firsthand.

PHYSICAL LECTURE AT RICE

Prof. R. A. Millikan to Talk on Scientific Achievements April 14 and 15.

Prof. R. A. Millikan of the California Institute of Technology and director of the Millikan Laboratory, will give these lectures in the physics department of the Rice Institute, on April 14 and 15.

Mystery Play to be Given by Cranmer Club

Second Edition of "Sister Beatrix" Draws Large Crowd.

The success of "Sister Beatrix," Masterpiece's charming mystery play, has so encouraged the faculty and students of the Rice Institute Dramatic Club, that they are preparing to produce a second edition of this popular play. The show is scheduled for April 14 and 15.

To Benefit the C. A. Fund

Two Performances of Three One-Act Plays Make Up the Bill for Friday and Saturday Nights.

Final rehearsals were held last night for the opening performances of "The Affairs of Atlas," Schickels' one-act play, and "The Haunted Minute," by Oscar W. T. Miller. The opening performance is scheduled for Saturday night, and the second performance is planned for Sunday night. The plays will be performed in the Rice Institute Auditorium.

ENGINERS CHOOSE NEW OFFICERS

The support of the Rice student body is especially looked forward to the spring term, and in particular, to the formal organization of the Engineers' Society. The officers for the present term were selected by the new members of the society, and are as follows: President, W. A. C. Fund; Vice-president, W. A. C. Fund; Secretary, W. A. C. Fund; Treasurer, W. A. C. Fund.
FEBRUARY 12, 1923

THE THRESHER :: HOUSTON, TEXAS

PROBATION AND ATHLETICS.

The Seniors suggested a system of probation for athletes. This is a matter that has caused some consternation among the Seniors. It is in 50 per cent of Eastern and Southern schools that probations are held for athletes, who are low in their opinion among the students. This Association would mean a lot for Rice. We would be in line with the rest of the Southern institutions. A student probation system would not only line us up with the rest, but it would make us better students also.

THE TWISTED POSITIVE.

In the hope that our views meet with the approval of strange men and women at Rice to get some action in the desired line, the whole body to register a long fall, long complained of "qubits" the Terborough. As a feature of the Campusile it is much admired, giving to the student it is only one or at least one for being ad-

The editor wishes to bring before the students at Rice the case of Professor Robert M. Lampson. This man is the case of a dialogue between a student and a professor. You have been told that this is the case of a dialogue between a student and a professor. You have been told what the case is about.

"What’s the point of this article?"
"One dollar, sir."
"Bought it direct from the manufacturer, I suppose."
"No, sir."
"I sold it at a shabby rate of the manufacturer’s stock."
"Why did the manufacturer buy it?"
"Through selling this article at a low base."
"I suppose he paid too much for his raw materials, eh?"
"No, it is not the raw materials.

"It’s a little more than that, isn’t it?"
"Yes, sir."
"What’s it sell for?"
"Yes, sir."

The Owl track team meets the Longhorns in a dual meet at Rice Field, Saturday, April 8. The Owls will wear red uniforms, as is the custom with the exception of Noisy, Noddy, and Goo, who will wear blue. The meet is expected to last 2 hours and 30 minutes, with the exception of Noisy, Noddy, and Goo, who will wear blue.

In the relay, Rice is expected to win both the 220-yard dash and the 440-yard dash. The Owls are expected to win both events, but Rice is expected to run faster.

The Owls are expected to win both the 220-yard dash and the 440-yard dash. The Owls are expected to win both events, but Rice is expected to run faster.
