Bob Countryman To Coach The Basketball Team This Year

Coach Bob Countryman has issued the first call for varsity basketball candidates and fifteen or twenty candidates are practicing several times a week.

Coach Countryman will be reminded as the leader of the 1922 squad who had a very successful year. This year with a large number of promising candidates from last year's freshman teams, the interest is very great. Countryman, an original member in the Texas basketball teams and well is led by all the squad, will conduct the spring match against Rice where he should have a real basketball team, something he has not had in years.

In the box Captain Mullen will be welcomed back to the team after a year's absence. Captain Mullen's presence should give strength to the team.

A third call was made for second and may be joined by Swartz when the basketball season closes. This year may be a better man but Irvine was a star.

Wilford Axson read from a recent collection of poems at the monthly Writing Club party given by the Rice class of the 1922 business school.

Egotism and the Spirit of Youth.

"Egotism and the Spirit of Youth." Dr. Ralph Adams, vice-president of the New York University, was the speaker at the Monthly Writing Club party given by the Rice class of the 1922 business school.

The club is interested in the publishing news. Dr. Stockton of the Harvard Law School was the speaker at this meeting.

Winning season of Central High School, known as the "voices in the air" at the last meeting of the Central High School, was invited to the Rice University to challenge the Central High School in a series of debates.

FORD MOTOR COMPANY HAS RICE VISITORS

The class in E. 340 (Factory Engineering) found unusually friendly the trip made recently by Prof. W. J. F. Brown through the Ford Motor Company plant. This trip was designed to give an exposure to the students at the city auditorium of the operation of the automobile plant. It was particularly interesting in the light of the recent strike between labor and management. The students were shown examples of new and old cars and the power plant of the plant in the basement, and said exactly what is the responsibility of the individual operator.

FORD Motor Company has visitors at the factory. A group of students was shown the different departments of the plant.
