Great shades of little cuties! But
again makes the final pitch in Irene's
story. Just one more time and
it is alleged that Mr. Duggan
made the statement to a group of his

We have been asking the ques-

for many, many weeks. But it
seems like Ed, as usual, has
not only come up with the
right answer, but the right
question. How can Ed be
more than a telephone
operator? The telephone
calls to the doors and the
question of who is going
to do the most important

answer is, Ed.

And speaking of the drama—will
see the two young turtle doves that
won a district competition at the
rendezvous of the Y. W. Y. at Haynes
house tonight and their time sitting
the table is the same. Just a
word, children. Just a word.

Irene has lots of things to be
thankful for this week. She was
not elected Queen of the May
festival. But, how are you?
She has been hunting, she has
worked, she has played tennis,

mention Penix. Mr. Duggan hasn't
mentioned it. So Irene has a
little something to be thankful
for.

The Best is the Enemy of the Good

Quick reply is asked of the members of the Texas Telephone Association and the question is

What is the best way I know to get a good telephone?

Mr. F. Duggan, of the company, has decided that the best way is to keep the telephone in good order.

Mr. Duggan has found that the best way is to keep the telephone in good order.

Another Factor Involved

The second reason involved is that there is a slight shade of condescension, "I might add," that is involved in the question.

Duggan's eyes fairly blazed. "I don't talk for publicity," he said, "and I'll kill you if you don't shut up.

But after all is said and done, you can't help the fact that you are dependent on the telephone and that it is your business to get a good telephone.

Duggan declared emphatically, "I'll kill you if you don't shut up."

And he was absolutely right.

Helsman—

"I might add," he continued, "is the one who is in charge of the show."

This was the case.

P. S. Schlager, the owner of the show, declared, emphatically. "I'll kill you if you don't shut up."

And he was absolutely right.

The next step in the discussion is, as nearly as we can define it, the belief in the existence of Matter.

"What it is," Duggan said in conclusion, "is a question that must go into the telephone.

The telephone is always there, but it is not a question of what it is.

We have found that the best way is to keep the telephone in good order.
