THE THresher

HOUston, TXAS

A weekly newspaper published by the students of Rice Institute at Houston.

Second Floor, Main Building.

TO RILAS WALT, JAMES HATHORN, AND THE BEAT OF THAT DAY OF STUDENTS WHO HAVE ANSWERED THE CALL IN A CRITICAL PERIOD OF RICE'S ATHLETIC HISTORY.

On behalf of the student body, The Thresher takes this opportunity to extend our whole-hearted thanks to you for your cheerful attitude in facing an important part in the responsibility of raising Rice athletics to a higher plane.

We all talk a lot about the future. All we say "this" and "that" about something. But how many of us are doing anything? You have voluntarily associated yourself with a big job and have set a concrete example of tangible assistance.

You have realized that the present situation is a matter of importance rather than indifference, and the work that you are doing, in the athletic magnet, is regarded as Heisman's work "as quite as important as the training of the athlete himself.

You have seen that if the athletes fall down on the job now we are liable to a change of attitude which, fostered by a lack of football interest, will take shape in nothing short of disaster. The enthusiasm of the athletic clubs has filled us since the organization of athletics at Rice took place.

Your work is appreciated, and if at the end of the term you have instilled a desire in the fibre of the student body to pass their courses with an original energy and a steamed determination to uphold the ideal of the student-athlete, then you will have done a great service to the administation which will contribute in large share to the maintenance of a high athletic standing in the Southwest.
