Rice Topics

This afternoon at 2:00 o'clock will mark the opening of the Third Biennial Engineering Show and Factory Exposition. This show promises fair to excel the two preceding exhibits in both size and completeness.

For the past month, a large number of Rice students have been working on their exhibits. These exhibits range from the smallest size to the largest size, and are of all sorts. Some of the exhibits are based on the latest developments in industry, while others are based on the latest developments in agriculture. The exhibits will be open to the public from 9:00 A.M. to 5:00 P.M. each day.

The show will continue until May 1st.

300 ATHLETES HERE FOR RICE CARNIVAL

ENGINEERS THRILLED

With Misses Found In Tunnel—Beware!

Many excited women students will be asked to leave the tunnel that has been found in the Engineering Tunnel. The tunnel is located under the Engineering Building, and is used by the students for a passage to and from the Engineering Building and the Gymnasium.

The tunnel has been found to be unstable, and the engineering students are working on a plan to reinforce it. They hope to have the tunnel ready for use by the end of the month.

Rice News

S TAGE SET FOR HEATED CONTEST-PRELIMINARY EVENTS AT 2:00 TODAY

Rice today is to host approximately 300 athletes from high schools all over the country for the Rice University Carnival which occurs this afternoon and all day Saturday, to exemplify the pageantry of a typical morning run at an institution of higher learning.

The preliminaries and heats of the events will be disposed of this afternoon, and the final meet, which is to be run tomorrow morning. The track will be on the football field in the Fallen Foe Bowl, in conjunction with the Fallen Foe Bowl matches, which are to be held at the same time.

The track meet is expected to be a great success, and the students are looking forward to it with great anticipation.

The Rice Owls will be facing some tough competition from other schools, but the Owls are confident of their victory.

RICE OWLS MEET SOUTHWESTERN, ON CINDERS SAT.

Rice is expected to come out on the long end of the score in the meet with Southwestern, which is to be held on the same day as the track meet. Although Rice has not defeated Southwestern in recent years, the Owls are confident of their victory.

The meet is expected to be a great success, and the students are looking forward to it with great anticipation.

The Owls are expected to come out on top in this meet, and the students are looking forward to their victory.

WELCOMING ATHLETES!

To you, Athletes, who have come to participate in the Intercollegiate Track Meet, we extend a hearty welcome. We are glad to have you with us. A good spirit is going to be shown to you throughout the entire course. This is our first place you are at one of the finest universities in the South. Make the most of your stay. Enjoy the meet

Quaint Quacks in Bugs Dept.

A recent acquisition of the insectary is a large white duck whose to the public is a great good luck. Any day may be seen in the insectary department, where he gambols, flaps, or perches, as properly fitting the mood of the old saying that “all quadrupeds are not bad.”

FOREIGN STUDIES IN NEED OF AND IDEAS IS HELPING

According to the report of the conversation, some increase, being raised for the purpose of aiding under-mentioned and underwater students in Germany, France, and other Central European countries, this help is growing satisfactorily. Next spring the Club plans to publish this year's collection of poems published during the first few days of 1924. The collection will be 12 pages in size, and will be sold for 50 cents.

The campaign will continue throughout the month. The first collection is expected to be made before April 15. The collection committee is pressing all members to fill up their order forms as soon as possible.

The Club's president, Dr. A. L. Smith, has been working hard on the collection and is planning to have it ready for distribution by May 1.

The School is a first-class institution, but the students are not always in agreement with the administration. A certain student, who is well known in the School, recently expressed his dissatisfaction with the administration. He said:

“Always the Best at Fair Price”

Young Man!

Before you buy your shoes, make sure you have chosen the right ones. There are many styles to choose from, but the most important thing is to find shoes that fit you comfortably and look good on your feet.

“Do the Drake”

The Drake is made in Black or Tan suede, Wingtip rubber heels

For the Finishes

In Social Dining, our Captivating Captains have kindly announced the following gregarious orders for Prescott Hole, Sulphur:

Remember

We are here with a fine line of shoes in stock, and we are ready to serve you. Whether you need shoes for the races, for the theatre, or for casual wear, we have them in stock. Come in and see our selection.

Engineering

(Continued from Page 1)

Dr. A. L. Smith, the head of the mechanical engineering department, has been working on a new research project. The project is aimed at developing a new type of engine that will be more efficient and last longer. The project is expected to be completed within the next six months.

The project is being funded by a grant from the National Science Foundation. Dr. Smith is optimistic about the project's success and believes it will have a significant impact on the field of mechanical engineering.

“Extraordinary Value and Quality”

Suits made with pants to match—$35

Easter-Sunday is none too soon to wear tropical weight clothes—especially when one gets the style to tailor for short and tailor-made of Shetland Worsted. Our line of lighter weights is extraordinary in every sense of the word, showing many new patterns in Tropical Worsted and Gabardine.

Combining Quality With Smartness

Straws are the order of the day, but for different reasons this year. There will be more fashion, more fancy and flawless Satins at $3 and $5.

If you knew what being out of wood does for pipe tobacco...

Even the finest Kentucky Burley Tobacco (and that’s the kind we are grown in) has to be aged before it’s ready for use. You could hardly smoke one pipe load of it.

And here’s where Velvet is different: Our smoking takes advantage of the tobacco’s natural rawness and harshness, and makes the tobacco mild and mellower and giving in wood what no artificial treatment can do.

Remember—Velvet Tobacco aged in wood.
