Esta semana tuvo lugar la primera alumnos, que será la 37, la que se ha hecho notar por su labor en el campo musical. Algunos de los profesores de la Escuela de Música de la Universidad de Rice, que han sido invitados a participar en el programa, han expresado su satisfacción por el entusiasmo y el interés que muestran los estudiantes por problemas musicales. Se espera que la serie de conferencias continúe con la participación de otros invitados. Se ha organizado un concurso de composición para los estudiantes. Los ganadores serán premiados con un viaje a Nueva York para asistir a una ceremonia en el Lincoln Center. Los trabajos de los estudiantes serán presentados en un concierto especial que se celebrará el próximo mes. Se espera que esta iniciativa motive a los estudiantes a explorar más profundamente sus intereses musicales.

We wonder how bootleg must suffer. Why? The subject has been discussed in the United States. It has been suggested that Congress follow Japan's example. Apparently young men can find readiness in the organization of Dr. M. A. Clark, however, who holds that education of the public in matters of kissing is one of the important duties of the churches. How nice of Dr. Clark, who also points out that it would further develop the interest in men's authorities, and will doubtless be of much interest to many men.
