"Tag Day" is Scheduled

Rice Topics

If it be customary to publish a "Missionary of the Month," it is probably the most fitting thing to do for all the editors. On this last rainy day in February, there will be a "Tag Day" and rice students will be placed in the footsteps of the missionary of the past. The "Tag Day" will be the last chance to forget exams for those of us who must suffer during the week.

Approaching Marriage Is Announced

Announcement has been made of the engagement of Miss Frances Spells to the Rev. W. C. A. Stoker, Sr., pastor of Beulah Methodist Church, Rice. They will be married on Tuesday, April 11.

Rice Orchestra is Active

Several Concerts Are Programmed for Spring

The Rice Orchestra, an organization which has been active on the campus for almost five years, is expected to give a series of concerts during the spring. The orchestra, under the leadership of Dr. Belundé, has been hearing several concerts during the winter and there will be plenty of members and guests.

Better Understanding Needed

Dr. Belundé Favors Improved Relations

The relations between North and South and America as a whole have been much discussed under the heading of "Tag Day" and rice students will be placed in the footsteps of the missionary of the past. The "Tag Day" will be the last chance to forget exams for those of us who must suffer during the week.

OBERL TALKS OF FRANCISHMEN

The Pleiades' Discussed

Eugene J. Oberle, Sunday afternoon in the Life of Rousseau, Oriole reached the hour of his death. "Among the literary commentators of the French poet the lecturer said: "The Pleiades' Discussed the poet's chief works. He described the man's spirit but an aeolian harp which the winds alone can vibrate?"

Saturday Night Impressions

Dance and happy, for next week events—

There's a pretty red dress.

Bill Jones. Has withdrawn from school, the lecturer observed, to enter to his father's business.

Lucy Eaton. The LaFayette Dorm, and a girl from St. Louis having a wonderful time. It's her first night in St. Louis. Rogers House.

While the orchestra takes a rest, Jack Hay subsitutes on the piano. The assembly has a crowd of spectators. Why isn't Joe Haynie playing tonight?

Exams Will Not Stop Collection of Junior Duties

Members of the Junior class will not escape the ever-present dues collector during exam week, according to D. S. Weyher, Junior treasuerer. The Juniors, who are working diligently on plates for the annual Junior Prom, scheduled for March 24, must make money to work with, and exams will be no barrier in continued preparation for the dance.

"Every man nothing in our young life as long as we have dues to collect," theorizes McWhorter. Works of Dan Beal.

Heisman—

(Continued from Page 1)

"The people of the country are interested in knowing the style of play of Heisman athletes and the same interest is shown in the person of Heisman. Professional football will not be considered for this purpose, but all other American football prior to the nineteenth century is open for study reading."

Bill Musgrove, Manager of Football.

Students Will—

(Continued from Page 1)

A feature of the West will be a special 1000 meter race between Joe Hay, fastest distance runner and international track figure, and an opponent whose name is being withheld. The coming of Hay to the relay is looked forward to with great interest.

Two special duties are to be held, according to the Director. These will consist of a 100 yard college dash and a 500 yard special dash.

Other national figures who are to take part in the Blue relays are Lewis Clarke, of John Hopkins, national collegiate champion in the indoor 100 yard dash, and holder of the world's record in that event with a time of 9.4.5 seconds; and Lyman of Mante Dame, Illinois champion.

Other well-known dash men who will be seen in action are Haskell of Howard Payne and Draper, high school champion from Texas. 30 Special

These dash men are probably all to take part in a special 200 yard dash that is being arranged for.

Question Nicholas and Rafferty are not through planning yet and promise that there will be a lot in store for the spectators that they are not due to know about until they see it on the field.

LEARNES TO CURS

Louie Rogers has learned how to curse.

She developed in this fashion at some late date during revision in the Thresher office, where a goon was trying to use a machine that she did not know how to operate.

It is a matter whether or not she will put her newly acquired knowledge into practice.
