**PROF INDORES WORLD COURT**

Faculty Members Are In Favor of Court

As in other leading universities, there are many influential faculty members at Rice who are in favor of the establishment of a world court in the United States. Some of these members have recently submitted a petition asking the president of the university to appoint a special committee to study the question.

There is a shortage of flashy ends this year, but at that, we find some relatively competent performers. South of Texas has shown form enough to be a factor in the top ranks with a fine halfback. Boy of R. M. U. Soag was a fine performer for a change, with the usual four-year man keeping up the traditions of the school. Small show for the rest.

The other athletic school, too, showed more to its credit this year than usual. On the other hand, the apbt- scribents, both good and bad, have set themselves the task of overlooking the majority of the players listed, and we have set ourselves the task of sifting the players visible to the casual observer.

The conference also have worthy representatives, but not in the numbers as has been the case of late. As a rule most of the games will be played on muddy and sloppy fields, and the various aggregations were played as maddly and clippily, and the various aggregations were played as maddly and clippily, and the various aggregations were played as maddly and clippily.

**Corona the best typewriter for students**

The last model Corona, illustrated above, is in our opinion, the best investment a student can make. It has the standard four-row keyboard just like the big office machines—in fact, it is a standard office typewriter in everything but weight and price.

No other portable typewriter is so complete and no other portable has behind it an 18-year record of durability.

Come in and see this new model today. It costs only $60. Easy terms arranged if desired.

Seven Men to Play Last Game
Conference Season Will Close on Turkey Thursday

By W. H. Hill

When the Owls tangle with the Butler Bulldogs Thanksgiving day, sacred to us, a feeling of thankfulness will be evoked.

Upon the last game for the Owls, we may as well scan the season like a movie picture. We may also take a look at the schedule and see how the Owls fared in their season's style leaders.

For the Owls and the Bulldogs, the season was a decided success. The Owls, who have been on the upswing all season, will be looking to add to their already impressive record.

The Owls have been on the upswing all season, and their success has been due to the hard work and dedication of their players. The Bulldogs, on the other hand, have been inconsistent throughout the season, but have shown signs of improvement in recent games.

When the Owls take the field on Thanksgiving day, they will be looking to add to their already impressive record. The Bulldogs, on the other hand, will be looking to finish the season strong.

Thanksgiving... and all that it means to you, and to us, a feeling of thankfulness that we are here, that we are happy, home again with good things to eat.
The Elder Sister

By PAUL HANDLEY

My introduction to Frank Ritchie was made by the person of the same name whom I met in the gymnasium at Transylvania College. He was a bit taller than I, and his hair was reddish-brown. Whenever the weather was nice, he would spend his afternoons reading the newspaper in the student union. It was during this period that I first became acquainted with his work, and it was through him that I was introduced to Frank's first novel, "The Elder Sister." The novel is a powerful story which should replace the more popular "Young Felix." Ritchie, like Anne, is a character who will weather it all. The plot is simple. As Mortimer's is for her, there is much with externals as he does them, but how few. He applied his strong arms to the new men's discomfiture. If any upstart was feeling powerful, he was given a bucket filled with soapsuds and as a result, they were sent out of it all.

Perhaps one gets a most significant insight into the characters of the two principal actors of the book in this conversation between Anne and Mortimer. The story is not love, like Anne's, but passion. About the boy's head.

This is certainty an indication of Swinerton's ability as a writer. He has already done his life story. He has a hook which will be a fitting title for the book. As funny as Lon Chaney—or Mary Pickford, the series made by the men applied their strong arms to the new men's discomfiture. If any upstart was feeling powerful, he was given a bucket filled with soapsuds and as a result, they were sent out of it all.

The English tutor is more anxious than the English teacher. He is the one who wpens them, and can only put them into the hands of the English teacher. The story is not love, like Anne's, but passion. About the boy's head.
