**QUESTIONNAIRES ARE RETURNED**

Rice's Policy Toward Athletes Is Not Exactly As It Appears

A week or so before the Christmas vacation, questionnaires were sent to prospective Freshmen for the purpose of securing the names of those who would be interested in the various sports and joining the Sub-Academic teams. This movement was started by the Registrar, Dr. D. W. Hurst, in his capacity as athletic manager, and was carried out with the understanding that the questionnaires would be sent to all those who had ever worn an Institute shirt.

There is no record of these questionnaires having been returned, but all those who were interested in the various sports and believed that they would be able to fill out the questionnaires were sent them. The only one who returned them was Jack Glenn, who has been chosen to take the lead in the Freshman elections.

**ENGINEERING SHOW PROGRESSING**

Publicity Manager Is Needed; Committee Heads Appointed

If present plans work out, the Engineering Show will be held in the Rice auditorium on Monday, February 9th, at 8:00 p.m. The show will be directed by the Engineering Department under the guidance of Mr. J. W. T. White, who will be assisted by the various members of the show committee.

The show committee is now busily engaged in the preparation of the show, and it is anticipated that the final program will be completed by the time the show is held.

**DRY AGENTS FAILED; XMAS IS WET**

Unusual Substance Falls On City; Causes Surprise

It is said that the rice relay team will have to be held until the weather improves before the relay can be held.

Although the Rice relay team was due to be held on March 27, it is still a couple of months away from the actual relay. The weather has been so bad that the team has not been able to practice much, and it is feared that the relay will be delayed until the weather improves.

**SCULLION'S HOP TO BE FEB. 11**

Williams and Madden Made Officers at Meeting

On January 10th, a meeting of the Student Council was held at which Williams and Madden were made officers. The meeting was attended by a large number of students, and it is anticipated that the council will do a great deal for the students in the future.

**PRE-LAW ASSN. WILL MEET JAN. 11**

Constitution to Be Presented; Faculty to Meets

The pre-law association will meet on January 11th, and it is anticipated that they will present a new constitution to the faculty.

**DANCE ON ISLAND IS HOT SHOT**

Rice-Galveston Club Puts on Good Dance During Holiday

The Rice-Galveston club put on a good dance during the holiday, and it is anticipated that they will continue to do so in the future.

**FRESHMAN ELECTION IS MYSTERY**

New Two-term System Works, Hardship on Freshman Voters

With the inexperience of the two-term system at Rice, the system has been working very well, and it is anticipated that it will continue to be successful in the future.

**ERICKSON KHARKOW, IN VICTORY**

The new two-term system has proved to be a great success, and it is anticipated that it will continue to be used in the future.

**TURN IN QUESTIONNAIRES IMMEDIATELY**

Jack Glenn, president of the Freshman council, has asked all those who wish to be members of the council to turn in questionnaires as soon as possible.

**THE THRESHER**

The Thresher, the student newspaper, was published on January 8th, and it is anticipated that it will be published every week.

AN EXCEPTION

First Citizen—This scene wrapped much 07th.

Second Citizen—Good evening.

First Citizen—'Ere you open with the dinner to be served.

Second Citizen—Well, I'm glad to hear it. You have never told me before anything else. I never would have given them the first Citizen.

First Citizen—This is the way the thing goes, I suppose.

Second Citizen—Yes, I suppose you're right. I have never been acquainted with anything else.

First Citizen—Well, it's a matter of time.

Second Citizen—Yes, it is.

First Citizen—This is the way the thing goes, I suppose.

Second Citizen—Yes, I suppose you're right. I have never been acquainted with anything else.

First Citizen—Well, it's a matter of time.

Second Citizen—Yes, it is.

First Citizen—This is the way the thing goes, I suppose.

Second Citizen—Yes, I suppose you're right. I have never been acquainted with anything else.

First Citizen—Well, it's a matter of time.

Second Citizen—Yes, it is.

First Citizen—This is the way the thing goes, I suppose.

Second Citizen—Yes, I suppose you're right. I have never been acquainted with anything else.

First Citizen—Well, it's a matter of time.

Second Citizen—Yes, it is.

First Citizen—This is the way the thing goes, I suppose.

Second Citizen—Yes, I suppose you're right. I have never been acquainted with anything else.

First Citizen—Well, it's a matter of time.

Second Citizen—Yes, it is.

First Citizen—This is the way the thing goes, I suppose.

Second Citizen—Yes, I suppose you're right. I have never been acquainted with anything else.

First Citizen—Well, it's a matter of time.

Second Citizen—Yes, it is.

First Citizen—This is the way the thing goes, I suppose.

Second Citizen—Yes, I suppose you're right. I have never been acquainted with anything else.

First Citizen—Well, it's a matter of time.

Second Citizen—Yes, it is.

Book Reviews

The Power and the Glory
Stuart Parrish
Reviewed by Andrew Foggewat
After reading as much favorable criticism of the latest novel of Sir Gilbert Parker, I decided to look the story up and see for myself. I have never read any of his stories before, and I was a little apprehensive as to whether I would find the novel to my taste. I have always been a great admirer of Sir Gilbert Parker's work, and I was anxious to see if he would live up to my expectations.

The story is set in the South of England, in the reign of King Henry VIII. It is a story of love and murder, of passion and revenge. The main characters are Sir Richard North and his wife, Lady Mary. Sir Richard is a wealthy landowner, and Lady Mary is his beautiful and seductive wife. They live in a grand manor house, surrounded by their servants and retainers. The story is full of intrigue and suspense, and it is hard to put it down once you start reading.

The writing is excellent, and Mr. Parrish has done a good job of bringing the story to life. The characters are well-developed, and the plot is complex and engaging. I would highly recommend this book to anyone who enjoys historical fiction.

Boardwalks are to be avoided.

The Post Grails don purple, the Sen-

aries purple and purple and purple.

For suddenly they have blossomed;

and I am sure that the whole world will be enchanted by the beauty of the flowers.

WORK WITHOUT TOIL

Ten or twelve hours a day toils the coile. If I carries all he can, he moves one ton one mile in one day.

For that he receives twenty cents.

Cheep labor! Yet compared with our American workman, receiving at least twenty-five times as much for an eight-hour day, the coile is expensive labor.

In America we move one ton one mile for less than one cent. The coile, working by hand, accomplishes little; while the American, with electricity's aid, accomplishes much.

Pleas of electricity and cheap coile—these are two great advantages which America enjoys over the rest of the world. While our present generating capacity is 20,000,000 kilowatts, last development calls for 30,000,000 kilowatts more per year.

To college men and women—potential leaders will find the duty of finding ones and still more work for electricity, with less and less toil for our workers. For the task is but begun!
